50 GLORIOUS YEARS IN SECURING CRITICAL INFRASTRUCTURE

CISF

A soldier in camouflage gear stands in the center of the frame, holding an assault rifle. The background features a city skyline at sunset, with a warm, orange and red sky. The soldier is positioned slightly to the left of the center, facing forward. The city lights are visible in the distance, and the overall atmosphere is dramatic and somber.

CISF

CENTRAL INDUSTRIAL SECURITY FORCE

MISSION STATEMENT

The Mission of the Central Industrial Security Force is to contribute towards enhancement of the security environment in the country and protection of our national assets, through quality security services.

To achieve these goals, we shall consistently upgrade our skills, develop professionalism and maintain highest levels of integrity, dedication and trust.

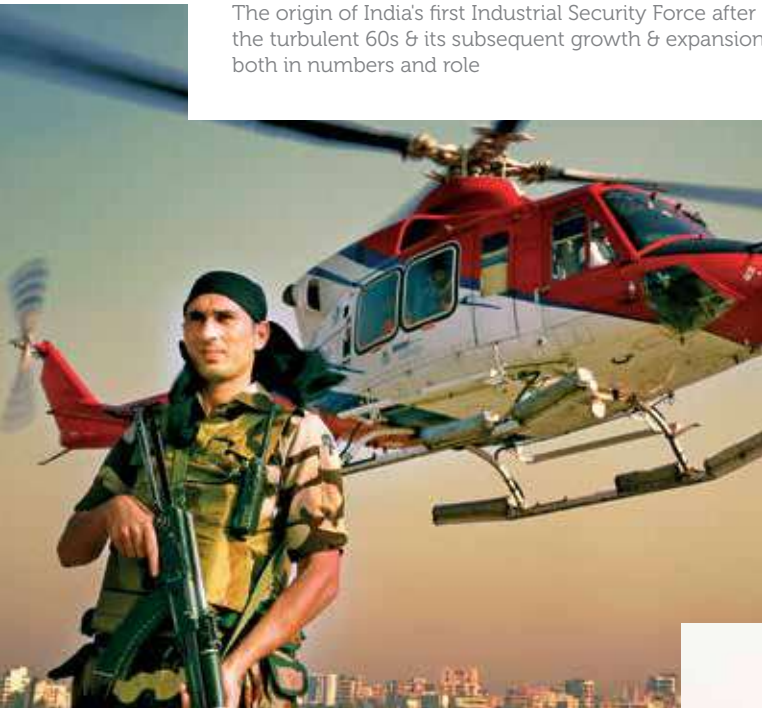

We shall further strive to serve the country selflessly, upholding our motto "Protection and Security."

CONTENTS

01

THE BEGINNING...

The origin of India's first Industrial Security Force after the turbulent 60s & its subsequent growth & expansion, both in numbers and role

12

INSTITUTIONS THAT INSPIRE

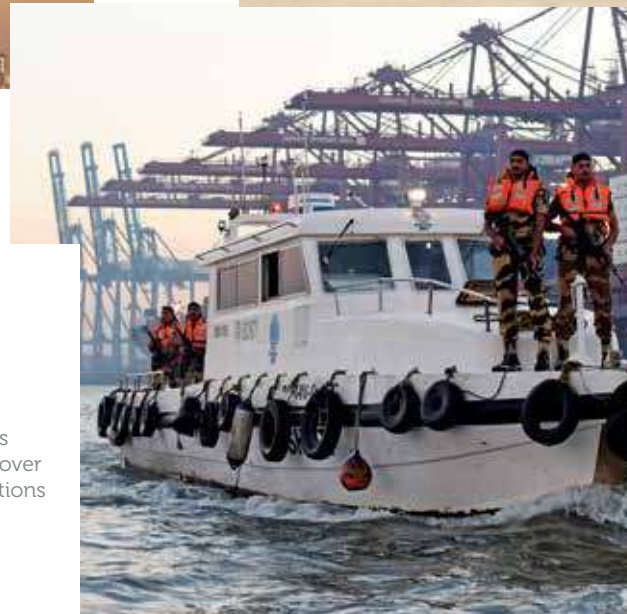

CISF's expansion led to creation of in-house training institutes, which, over the years have acquired world class infrastructure and are today the 'alma mater' of this multi-skilled Force

36

OUR PRESENCE- OPERATIONAL THEATRES

Initially tasked to secure our PSUs, CISF's responsibilities were later enlarged, to cover both the private sector & critical installations that contribute to economic growth

112

WOMEN POWER

The Force with the largest number of women among all CAPFs. Women in CISF are no less, in fact, are more than equal, to their male counterparts

128

CISF IN FOREIGN/UN MISSIONS

A debut with Cambodia in 1992, CISF served in 10 other countries, besides securing EoI in Nepal

134

FIRE SERVICE

With 7000 personnel deployed in 101 Units, CISFs Fire Wing is India's largest professional fire fighting force, with specialisation in Disaster Management

158

MODERNISATION: MAKING CISF A FORCE OF THE FUTURE

Adaptability to change & use of cutting edge technology have been the hallmark of CISF.

164 | OUR ACHIEVERS

174 | OUR HEROES

140

SPECIAL SECURITY GROUP (SSG)

The growing threats to the country's VIPs led to the raising of a Special Security Group, that covers 70 protectees in 42 cities, spread over 14 States/UTs

146

CISF IN STRIFE TORN AREAS

In Securing the critical assets in extremely remote and difficult terrains of the country like Naxal infested, Insurgency prone North- East and Terrorist infested J & K

156 | SECURITY & FIRE CONSULTANCY

176

WELFARE & SANRAKSHIKA

With wives & daughters being equal stakeholders, CISF's Wives Welfare Association 'Sanrakshika', was formed, which now has a presence in every Unit

182 | TENURES OF CHIEFS OF CISF (IG/DG)

184 | FOOTSTEPS ON THE SANDS OF TIME

190 | OUR PRESENCE IN SOCIAL MEDIA

194 | APPROBATION FROM LUMINARIES

198 | INSPIRATIONAL INTERACTIONS

The Beginning...

The Central Industrial Security Force, popularly known by its acronym-CISF-has emerged on the nation's cognitive map as a multi-faceted, multi-skilled and multi-dimensional Armed Force of the Union of India.

THE GENESIS

It was the pioneering vision of our founding fathers to establish Industrial units – the 'temples of modern India' which led to creation of strong infrastructure and giant steel plants at Rourkela, Durgapur and Bhilai.

However, these newly created PSUs lacked formal security apparatus, resulting in agitations, strikes, sabotage and forcible work stoppages. In 1961, GoI created a post of Industrial Security Advisor to review the existing security arrangements in the country's PSUs. Shri S M Dutt was appointed as Security Advisor in the Department of Industry and his first recommendation was to raise a uniformed Force to cater to security of all PSUs.

In June'1964 a devastating fire broke out in HEC Ranchi causing massive loss of public property worth 40 lakhs. The disaster necessitated the appointment of one man Commission of enquiry headed by Justice Mukherjee, a former Judge of Allahabad High Court. Adding fuel to the fire, another disaster in the form of communal trouble erupted at Ranchi, Rourkela and Jamshedpur. The security of the plants was seriously compromised at such a crucial juncture. The then Deputy Home Minister reiterated the need for setting up of an Industrial Security Force on the lines of Railway Protection Force.

It was on 13th August'1968 the CISF Bill was finally passed by Parliament which got President's assent on 2nd Dec' 1968. The Central Industrial Security Force Act-1968 came into force on 10th March' 1969.

Third Mystery Fire In Ranchi

'ORGANISER' Special Ranchi, Sep. 11.

IN THE RAJYA SABHA yesterday, Jana Sangh leader Shri Atal Bihari Vajpayee and several other members criticised the Government for delay in making public the inquiry report about the fire which broke out in the Heavy Engineering Corporation, Ranchi, back in January 1964.

And at 2 O'clock last night another big fire has occurred in the H.E.C.—the third in the series. This time's fire has been in the custody stores of the Foundry Forge Project, a feeder project of the Heavy Machine Building Plant.

Six crates containing costly machinery imported from Czechoslovakia were gutted. According to knowledgeable circles in the H.E.C. area the damage may again run into several lakhs of Rupees.

The fire was first detected by a Bihar Military Police constable on duty at about 2 O'clock in the morning. Two units of the Fire Brigade were rushed to the spot to control the fire.

News Blacked-Out

Every effort is being made

to suppress the news. (It is reported that not a single daily in the capital has reported a word about this serious mishap.—Ed.) The H.E.C. authorities could not be contacted

Smoke Out The Saboteurs

after the incident. A newsman rang up the H.E.C. authorities about 20 times but there was no responsible person on the line!

It may be recalled that this is the third major fire in the HEC. The first which broke out in the Heavy Equipment shed of the Corporation in May 1963 destroyed stores and machinery worth several lakhs of Rupees. The second fire which broke out in January 1964 and which shook the nation, destroyed or severely damaged more than 100 crates of imported machinery stored in the Central Casting & Forging Stores of the Heavy Machine Building Plant. The loss was believed to exceed Rs. 1 crore but the Government admitted a loss of only Rs. 40 lakhs.

Minister Ignores Forewarning

It may be mentioned here when Mr. T.N. Singh, Minister of State, Heavy Engineering visited Ranchi on August 24 a newsman expressed his anxiety about the security arrangements in the HEC and apprehended the possibility of another big fire in the HEC. But the Minister ruled out

HEC

THE EMERGENCE

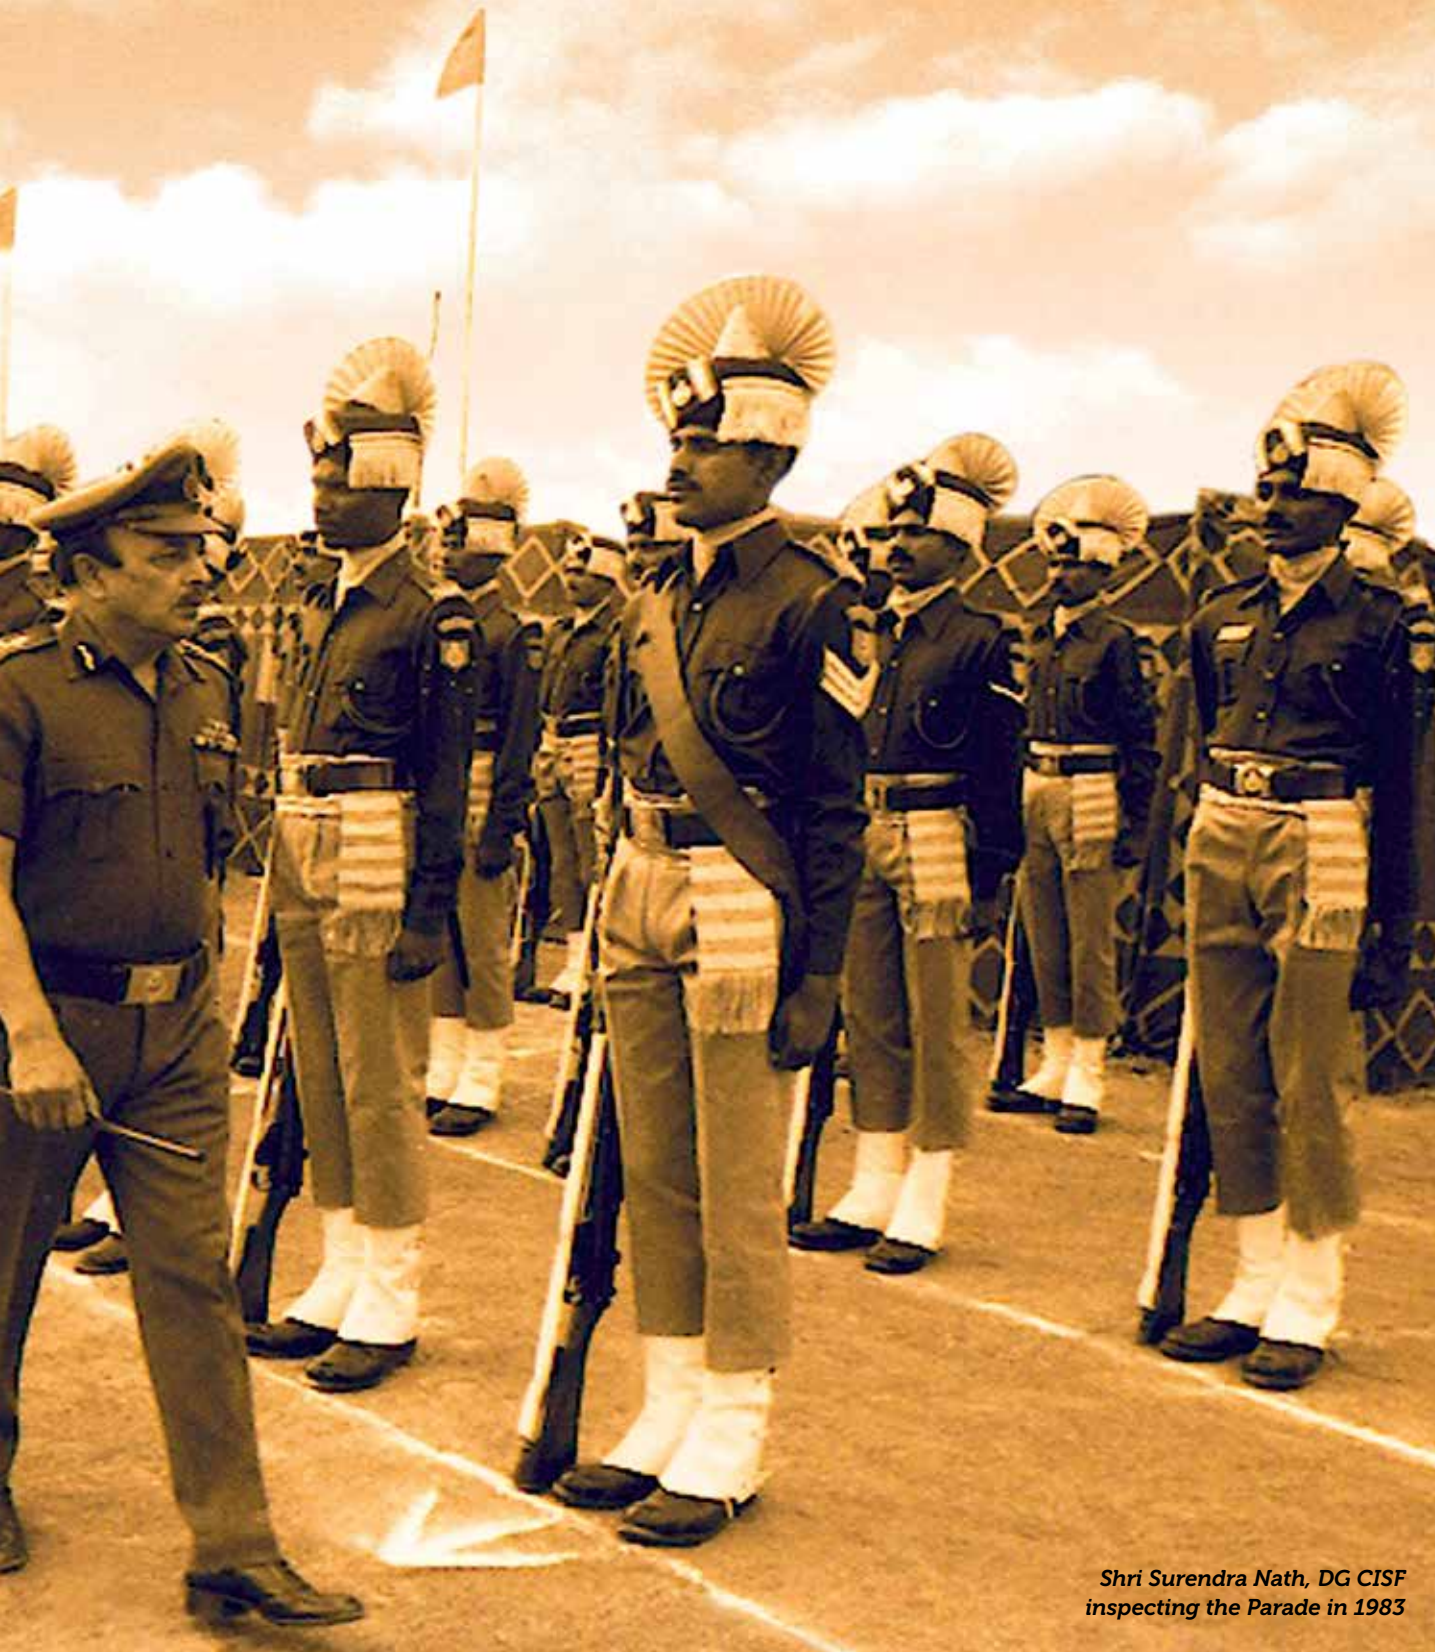

The CISF Act, 1968 (Act No 50 of 1968) was enacted by Parliament, to provide for the Constitution & Regulation of a Force called "CISF", for better protection and security of Public Sector Undertakings.

From a modest strength of 3000 personnel at the time of its inception the CISF has grown to a sizeable number of 1,53,000 today. With the Govt. enhancing its ceiling to 1,80,000 in 2016, CISF will see a surge in its size soon. The Pan-India deployment of the Force across 341 units covers diversified areas like Atomic Energy and Space Installations, Sea-Ports, Steel Plants, Coal Fields, Hydro-Electric and Thermal Power Plants, Defence Production Units, Fertilizer and Chemical Industries, Note Printing Press/Mints, Heritage Monuments/

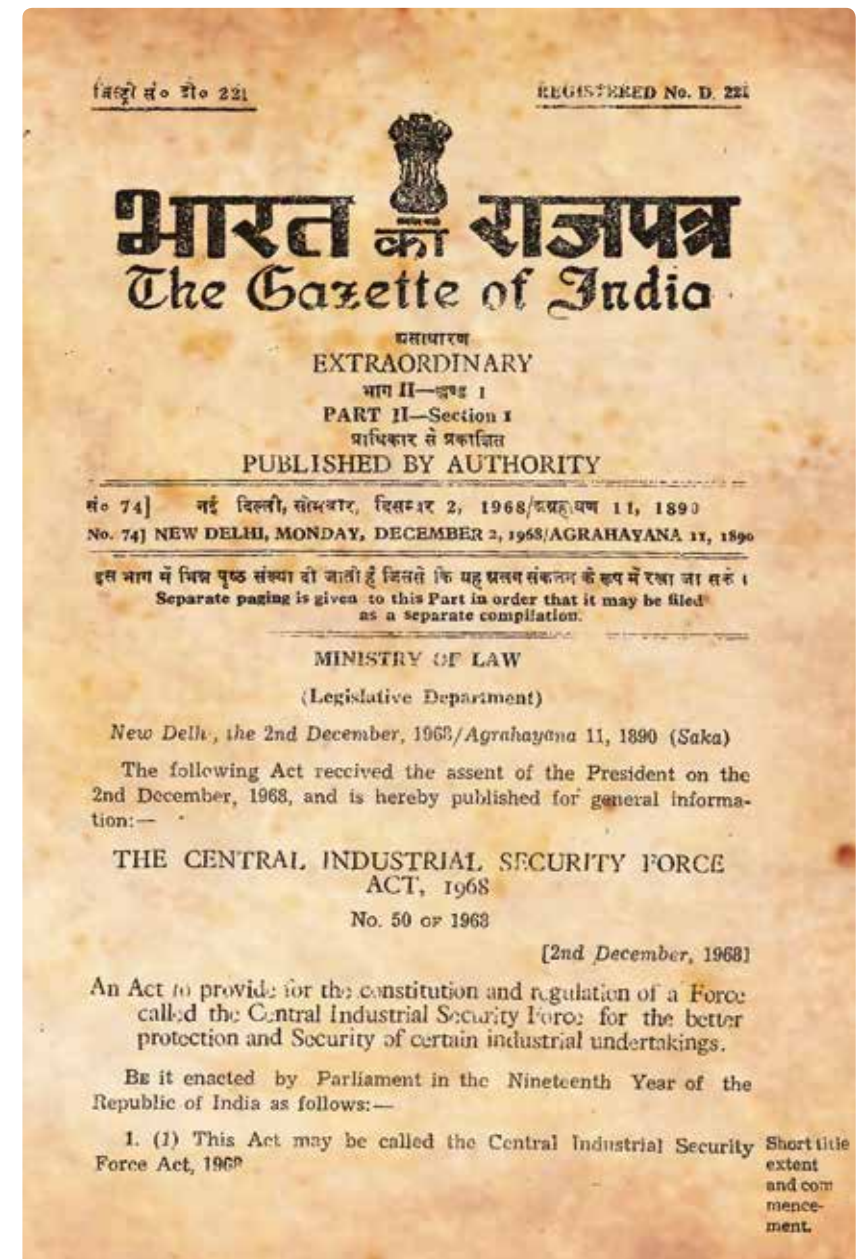

Museums (Taj Mahal & Red Fort etc). Besides this, CISF presence in 59 International and major airports of the country, Delhi Metro Rail and important Govt. buildings is a critical security commitment. The Force also provides VIP Security through its elite and specialized Special Security Group (SSG) commandos. The broadening of charter of duties and responsibilities in the year 2009 has brought Private Sector establishments under the security cover of CISF too.

The geographical spread of the Force includes sensitive areas, affected by terrorism and Left Wing extremism in the states of Jammu & Kashmir, Chhattisgarh and North Eastern states. The high degree of vigil and alertness coupled with operational preparedness has enabled CISF to effectively thwart attacks by subversive forces.

Shri Surendra Nath, DG CISF
inspecting the Parade in 1983

OUR USP

Being an Armed Force of the Union, CISF has carved its niche due to its many distinctive features.

It is the only CAPF -

- To secure Nation's Critical Infrastructure.
- To have largest Public Interface.
- To earn revenue for GOI and not a burden on Govt exchequer.
- To have highest percentage of women workforce.
- To offer Security & Fire Consultancy services.
- To provide Fire services.
- To perform multifaceted roles in diverse sectors.

OUR CHARTER OF DUTIES

In pursuance of its motto "Protection & Security", CISF's charter has broadened over the years, to make its presence pan India, including sensitive areas, affected by terrorism & Left Wing Extremism in states of Jammu & Kashmir, Chattisgarh, Jharkhand & the North Eastern Region.

The original charter was to provide protection & security to the property of Public Sector Undertakings.

IMPORTANT AMENDMENTS

1983

- Declared an Armed Force of the Union.
- Additional powers of arrest were given.

1989

- The employees of PSUs were included within the security cover of CISF.

1999

- Provision of technical consultancy services.
- Any other duty which may be entrusted by the Central Government from time to time.

2009

- Deployment in joint venture and private industrial undertakings.
- Extension of deployment in foreign countries and missions.

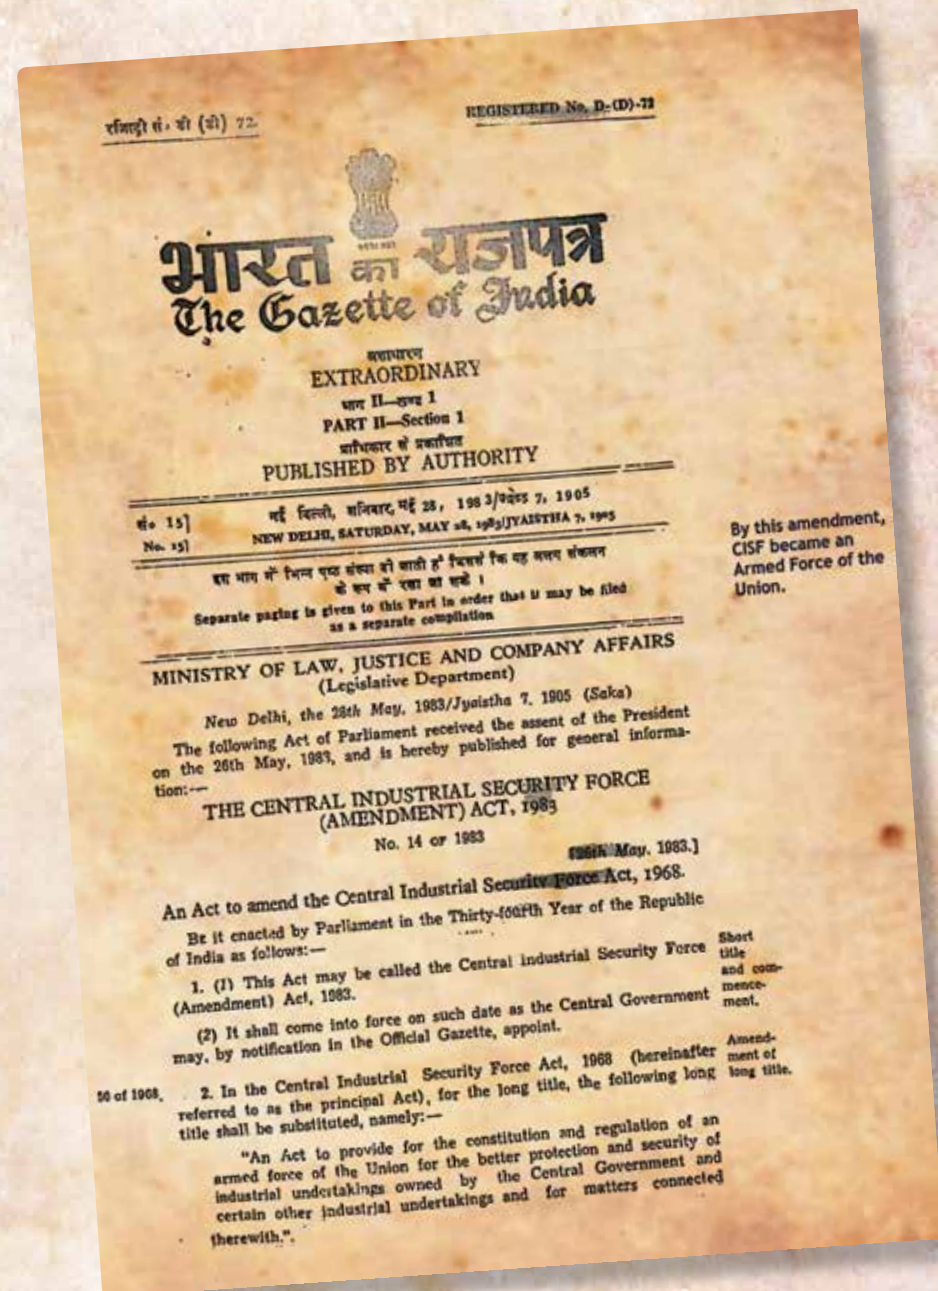

ORGANISATIONAL STRUCTURE

CISF with its HQrs in New Delhi, is headed by a Director General and has 11 Sectors & 48 other formations viz Zones and Group HQrs, spread across the length & breadth of the country. The Force also has 12 Reserve Battalions & 08 Training Institutions.

CISF has a cadre of its own Officers & the intake for direct entry Asstt. Comdts is through UPSC & for Sub-Inspectors & Constables, it is through SSC. CISF strives towards training the recruited human resources for general & specialized tasks, so as to acquire the requisite skills, knowledge & attitudes needed for specialized sectors, where the Force has the responsibility. Mentoring & team-building for the direct officers is a continuous process, thus ensuring optimal performance at all times.

CISF Directorate, MHA and its Parliamentary Committee regularly review the working of CISF from time to time, for the betterment of the Force.

TRAINING – THE 'SINE QUA NON' OF CISF

The importance of training can be traced back to the very genesis of the Force. The Justice Mukherjee commission had reiterated the need for proper training of security personnel by a specialized central establishment. Similar recommendations were given for the fire services also. Thus, quality training was supposed to be a defining factor of CISF that would, in fact, justify its existence.

Evolution is a continuous process in training at the CISF Institutes, which too have evolved over the years

Weapon training is a continuous process that gets ingrained in the daily routine of a trainee

EVOLUTION OF TRAINING IN CISF

The first training college in CISF was set up in Meerut in 1969 which was shifted to Hyderabad in 1971. Later on more training facilities were added in different locations of the country to support the increasing demand of fast diversifying Force.

FIRST BIFURCATION

Within five years of its formation, CISF was inducted in almost 50 locations, including critical sectors like Dept of Atomic Energy & Space. This necessitated the urgent requirement for more training facilities. Accordingly, another training centre was established at Bhilai, in Feb 1975.

Training on simulators or live models, both are integral to a realistic pattern of training

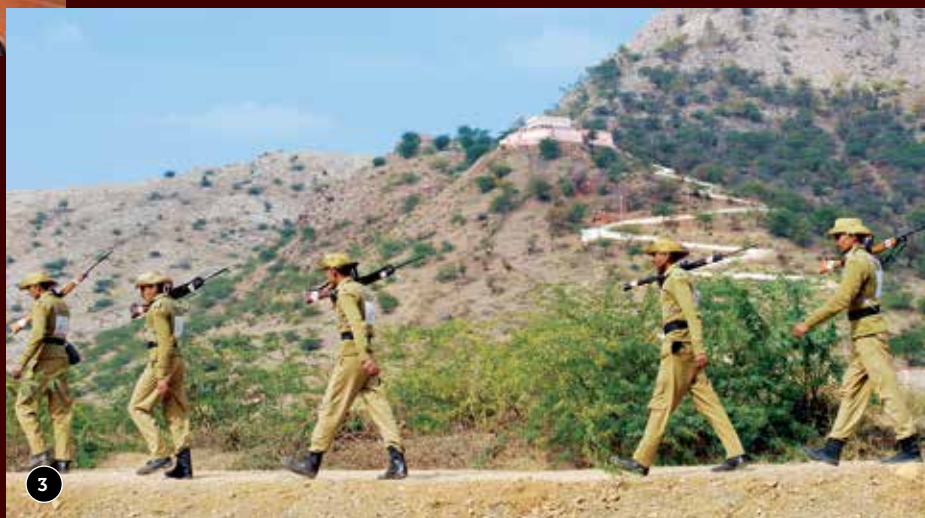

1. Getting the feel of live firing : Reflex shooting
2. Basic Commando training is also imparted to all recruits
3. Indoor training for drivers using simulators
4. Classroom exams are integral part to a recruit's overall training
5. Oath taking before the Passing Out Parade of CISF recruits
6. A Passing out Parade at one of the RTCs

THE EVENTFUL EIGHTIES

Once CISF was declared an Armed Force in 1983, need arose to have enough training centres, where its manpower could be imparted refresher training periodically. Accordingly, training centres were set up at Deoli, Rajasthan (1984); Barwaha, MP (1985); Mundali, Orissa (1986) & at Arakkonam, TN (1989). To train the Fire Wing, a dedicated Fire Service Training Institute (FSTI) was set up at Deoli in 1986. Also, CISF training college moved to its own land at Hakimpet, Hyderabad in 1987.

- 1 Automated access control for first hand exposure
- 2 X-ray Baggage Inspection System training
- 3 A Long Route March
- 4 'Krav Maga' training is something unique to CISF
- 5 Physical training has many forms and modes

A motivational talk to trainees at RTC, Deoli

DIVERSIFICATION OF TRAINING

With the induction of women, the need arose to run specialised training courses for them. This responsibility was assigned to RTC, Barwaha & subsequently to RTC Arakkonam.

Increasing responsibilities & changing threat perceptions to various vital installations underlined the need for specialized training.

As the number of Airports under CISF cover began to increase and with taking over of Security of Delhi Metro, a large number of women started working at the cutting edge level, alongside their male counterparts. Therefore, need arose for imparting gender sensitization training, which started at RTC Arakkonam, in 2005.

In 2009, after the Mumbai attacks, a course on Marine Commando was conceptualized

and since then, is being conducted at RTC Barwaha, to take care of security of water fronts of CISF units.

Use of IEDs by inimical forces have been on the rise in the recent past. To counter such attacks, especially at Airports & at the Delhi Metro, there arose a requirement of trained sniffer dogs for effective anti-sabotage checks. Hence, a dog training school was set up at 5th Reserve Battalion in Jan 2010.

With increased threat perceptions & innovative modus operandi being adopted by anti-national elements, it was felt necessary to enhance the intelligence apparatus. Therefore, a Central Intelligence Training School (CITS) was established in March, 2013 at the 5th Reserve Battalion, Ghaziabad.

FORMATION OF THE TRAINING SECTOR

Till 2009, all RTCs were functioning under the control of IG, FHQrs. In 2005, the post of Director NISA, Hyderabad, was upgraded to the rank of IG and the responsibility of Training Sector (TS) was also given to him. Presently, NISA & RTCs are functioning as two separate components under IG,TS.

NATIONAL INDUSTRIAL SECURITY ACADEMY (NISA)

CISF Training College, initially established at Meerut in 1969, was subsequently shifted to Shivrampally, Hyderabad in 1971. Finally in 1987, it moved to its present location at Hakimpet. This was upgraded & was christened as NISA in Dec, 1990. The Academy, located opposite the Air Force Station is spread over in 237 acres. Shri V K Deveskar Principal, was instrumental in identifying the land & Shri Anand Ram, the then DG played a pivotal role in getting the land allotted by the State Govt.

The courses for Constables & SIs commenced in 1987 and the basic training of ACs started in 1990. The first POP took place on 8th Dec, 1990, when the Training College was upgraded to an Academy. This day is celebrated as NISA's Foundation Day. GoI has declared NISA as a 'Centre of Excellence'.

NISA-CENTRE OF EXCELLENCE

NISA is instrumental in shaping and moulding newly recruited officers and men to a professionally competent and highly motivated individuals. Today, it is the focal point of India's industrial security training & a torchbearer of training innovations & improvements for the entire Training Sector.

The Academy offers three types of courses: Induction training for newly recruited GOs & SOs; Pre-promotion courses, Thematic courses as per requirement of the Force. In addition customized training courses are conducted as per requirements of other organizations, Foreign countries, CAPFs, BPR&D etc. It also boasts of a Technical Centre which provides technical know-how & knowledge on modern gadgetry.

Recently, NISA has signed an MoU with NALSAR University of Law, Hyderabad. Henceforth, ACs & SI Trainees will get PG Diploma in Industrial Security, Law & Management.

RTC Bhilai, the pioneer training institute of CISF, has the best infrastructure & boasts of all modern training facilities today

MAKING OF RTCs

Each RTC has its own tale about its evolution & growth.

RTC Bhilai - 1975

The first training centre, established in 1975, after bifurcation from CISF Training College, Shivrampally, Hyderabad. Initially, with a training capacity of 270 personnel, it was upgraded in Feb-1998 & capacity enhanced to 500 personnel.

RTC Bhilai has a specialized motor training school for training of newly recruited drivers in driving skills, preventive & corrective maintenance of vehicles.

RTC Deoli-1984

Located in the historic town of Deoli, on the tri-junction connecting Jaipur, Kota & Ajmer, it was opened on 01 Aug , 1984. During the year 2017-18, more than 8000 recruits were trained, a feat entered in Limca Book of Records.

Deoli, by virtue of its location, is a historic Centre, fully equipped for all courses. It boasts of a world record for having infrastructure for maximum trainees at any one place in the world

RTC Barwaha - 1985

RTC Barwaha was established on 1st April 1985. Ensnconced in the picturesque hills of Malwa plateau, Barwaha falls on the meter gauge rail line linking Ratlam-Akola, the nearest town being Indore, 70 Kms. The complex is spread over in 190.44 acres.

Better known as CISF's Commando Training School, this RTC carries out specialised QRT/WT/ & Tactical training

RTC Arakkonam-1988

In view of increasing strength, need was felt for establishing a training centre in Southern India. Thus, RTC Arakkonam was established in 1989 & training commenced on 16th April 1990. It is located at Suraksha Campus, in Vellore District of Tamil Nadu, 70 kms from Chennai. Initially, it was designed to give basic training to newly recruited constable trainees & later up graded for basic training of newly recruited Sub Officers of all cadres.

South India's training beacon, this RTC, specialises in Aviation Security, Gender Sensitisation & Intelligence courses

The latest among CISF's training Centres, this Centre oversaw the raising of two NDRF Bns & also specialises in First Aid, CPR & Health care courses

RTC, Mundali-2002

It was initially established as an ad-hoc-training centre at Paradip in 1981 & became a regular centre in 1986. Due to land constraints & adverse climatic conditions at Paradip, 100 acres land was acquired on Cuttack-Banki highway, 18 kms from Cuttack & foundation stone was laid on 19 April, 1997. However, the RTC continued at Paradip, till it was moved to present location at Mundali on 18 Sep, 2002.

RTC Behror- 2010

This Centre was originally established on 2nd April 1988, at Sidhabari, Burdwan, West Bengal on 18.44 acres of land. MHA approved temporary shifting of RTC Sidhabari to Deoli campus in Sep 2002. Since there were two RTCs functioning on the same campus, they were re-named as RTC-I and RTC-II Deoli. Finally in 2010 the training centre was shifted to its permanent location at Behror, Rajasthan.

Basic Induction courses for Ct/GD & Ct/Tradesman and other In-Service & Promotional Courses are conducted here.

Among the RTCs which saw maximum re-locations, this Centre is the largest & specialises in VIP Security, Bomb Disposal & Evasive Driving courses

Dog Training School, Ranchi-2017

A full fledged Dog Training School has been established at CISF campus, Ranchi on 3rd Jul 2017 to cater to the canine requirements of the Force. Initially it was set up at 5th RB Ghaziabad.

FIRE SERVICE TRAINING INSTITUTE (FSTI)-HYDERABAD

Fire Service Training Institute (FSTI) is our iconic training institution, with state of art facilities, imparting training in Fire related discipline & Disaster Management.

With world class infrastructure, Fire Training is serious business for us

ORIGIN OF FSTI

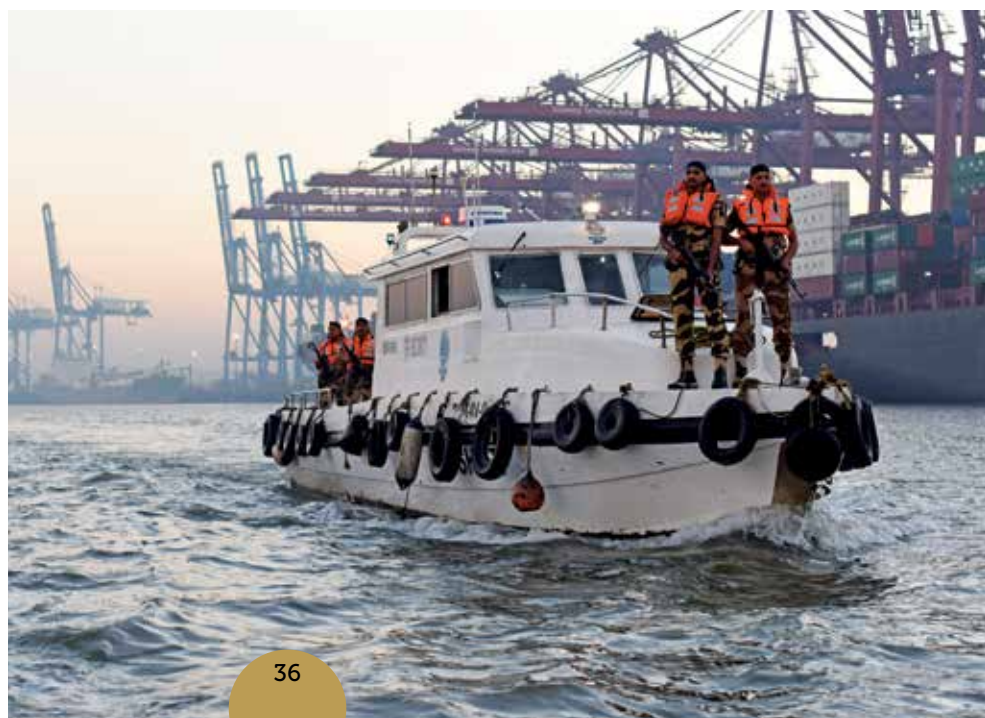

Fire Service Training School for CISF at Deoli, Rajasthan was setup in 1986, with a sanctioned strength of 84 personnel.

FSTI was subsequently established at Hyderabad which has a separate Technical & Administrative buildings, with multiple facilities & a technical centre with specialized training equipment, along with simulators, swimming pool & a library.

SPECIALIZED COURSES AT FSTI

- Fire safety in Petrochemical Industries
- Fire Hazards in Power Plants
- Fire Safety at Chemical & Fertilizer Plant
- General Fire safety in Industries Course
- Aviation Fire Protection Course
- Rope Rescue Course
- Breathing Apparatus Set Course
- Fire Drill Instructor Course
- Vertical Interaction Course
- Road Traffic Accident & Confined Rescue Course
- Operation & Maintenance of DCP & Rescue Tender Course
- Fire safety Audit workshop
- Fire Safety Consultancy
- Training outside organizations i.e. ONGC, Infosys, AP Fire Service, ISRO & many others

Our Presence- Operational Theatres

CISF was initially created to safeguard the PSUs owned by GoI. Over a period of time, mandate of CISF was broadened & presently CISF provides security cover to most sensitive & critical infrastructure of the country. This includes International & Major Airports, Sea ports, DOS & DAE units, core areas of Steel, Coal, Power, Chemicals & Fertilizer and oil, Mints & Security printing press, Defence production units, Heritage buildings, Major central govt buildings, Delhi Metro, VIP security, Private establishments, Indian Embassy at Kathmandu (Nepal) etc.

*The CISF edge! Protecting & Securing
airports since the year-2000*

CISF IN AIRPORT SECTOR

The Kandahar hijack of Dec, 1999 brought about a major change in threat perception for aviation security, forcing the Govt to revamp India's airport security. The then DG CISF Dr. Trinath Mishra along with Mr M B Kaushal, Special Secy, MHA & Mr Ravindra Gupta, Secy, Civil Aviation were instrumental in entrusting this onerous responsibility to CISF. Accordingly, security of Indian airports was taken over by CISF from State Police Forces.

PROTECTING INDIA'S AIRPORTS

On 3rd Feb, 2000, CISF took over security at Jaipur Airport. Since then, CISF is securing 59 airports. To prepare the inductees, a rigorous training schedule was prepared. Special emphasis was laid on courtesy & promptness. Today, passengers are highly appreciative of the alertness, behavior & efficiency of the Force manning these airports.

CISF has recovered and returned lost & found items worth crores of rupees to its owners or deposited the same with airport operators. 'Lost and found' facility on CISF website is a great help to the air travellers.

In the year 2016, CISF security service at six Indian Airports was adjudged 'Best Airport Security Service' by the Airport Council International, Brussels, amongst 200 Airports of 50 countries.

Summary of Achievements in Airport Sector (2012-17)

- Unattended property recovered
 - (a) Handed over to rightful owners - ₹57.61 crores
 - (b) Handed over to airport operators - ₹133.14 crores
- Total** - **₹190.75 crores**
- Touts apprehended - 2942
- Recovery of contraband items - ₹52.75 crores
- Arms & Ammunition detection - 72 & 270 cases respectively
- Post-demonetisation
Information shared with Income-Tax, Air intelligence units & Recoveries made:-
 - Gold - 1491.504 Kg
 - Silver - 577.637 Kg
 - Cash - ₹87.18 Crores

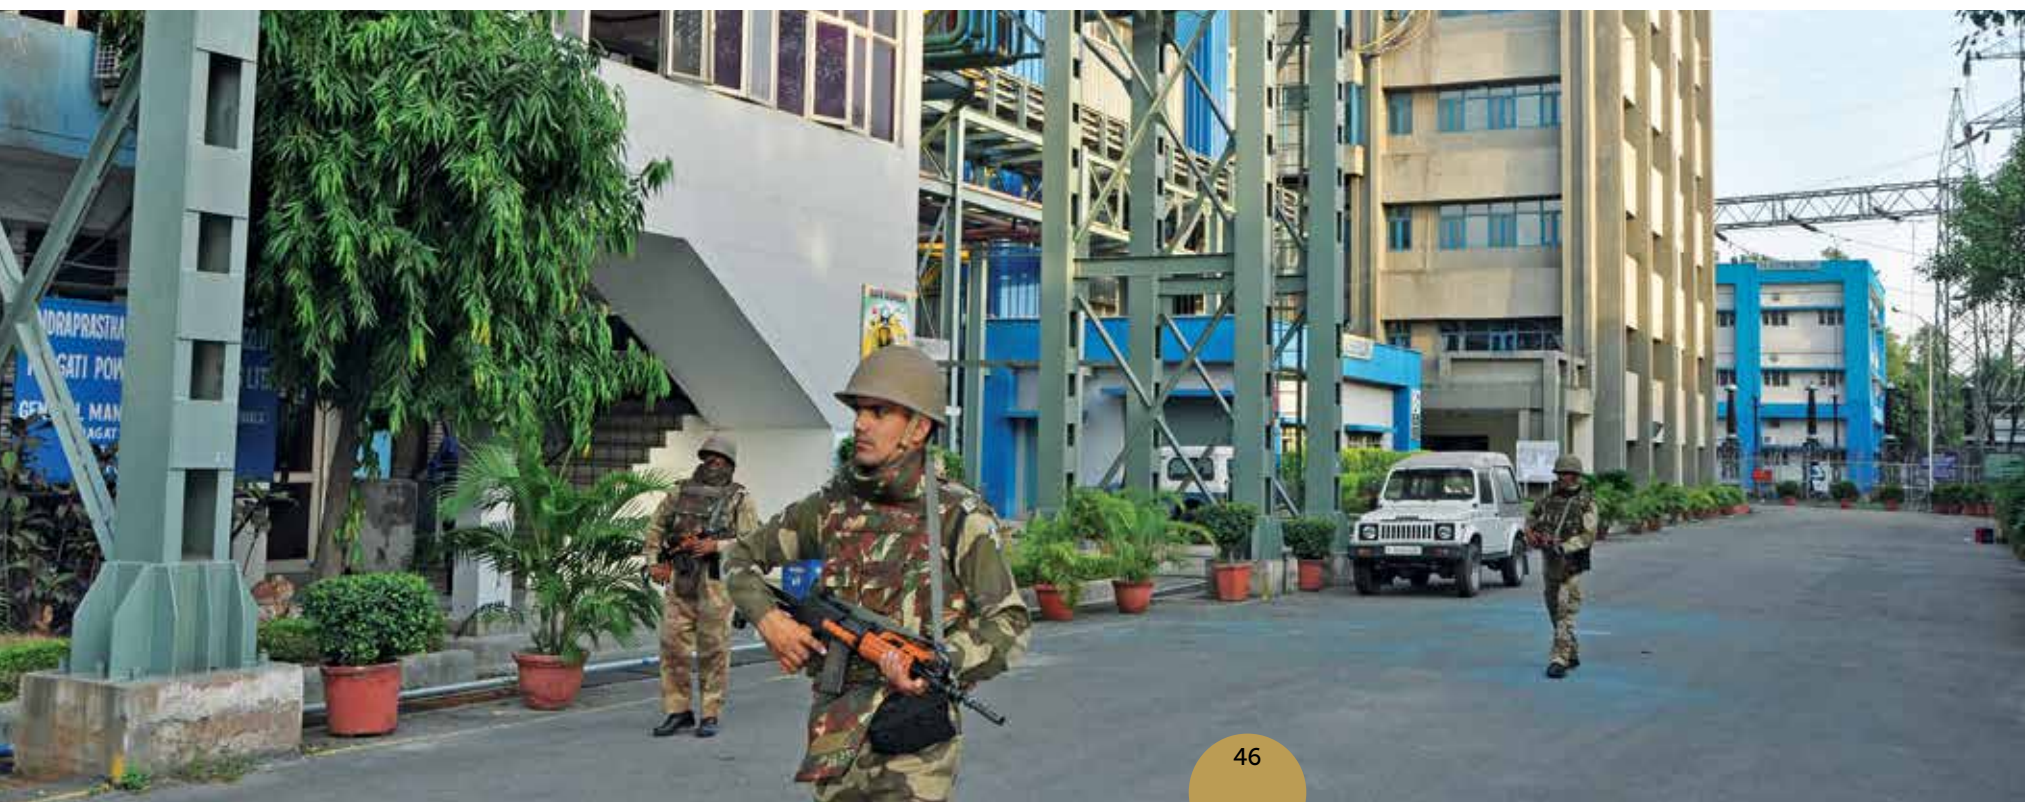

The background image is a composite. On the left, a tall, complex industrial structure, likely a power plant, is shown with multiple levels of metal scaffolding, walkways, and large vertical pipes. On the right, a soldier in camouflage uniform and a cap stands on a metal platform, looking towards the left. The sky is clear and blue.

CISF IN POWER SECTOR

Thermal Power

With growth in power generation, transmission & distribution, Thermal Power sector is playing a vital role in furthering India's economic growth. CISF is deployed to provide security cover to undertakings of both, Central as well as State Govts, with NTPC plant in Shaktinagar (UP) on 30 July 1979 as the first unit. The number rose to 24 units in 1993 and expanded to 81 units at present.

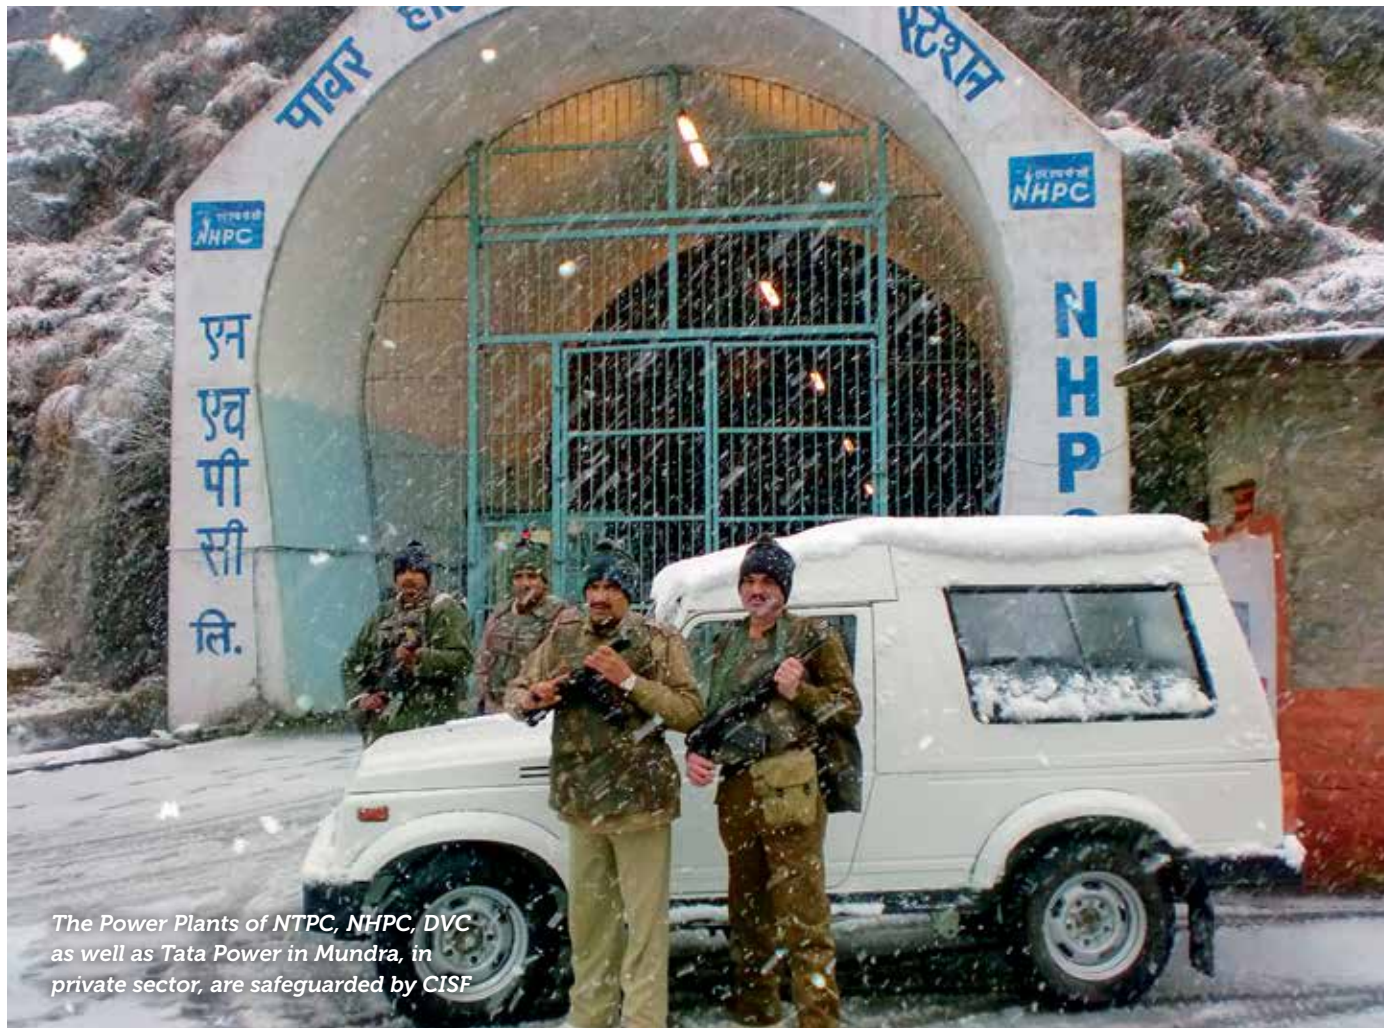

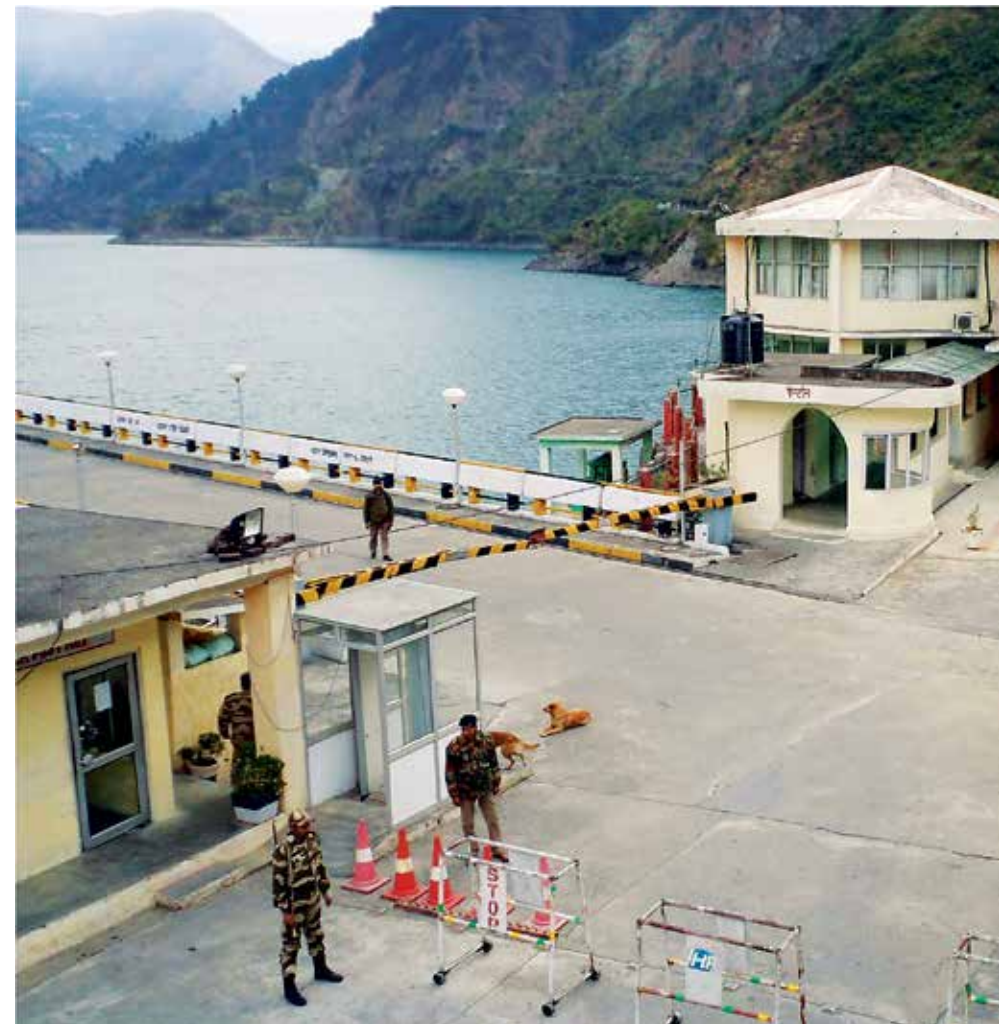

The journey of CISF in the power sector has been brick by brick, over 4 decades! The presence of security personnel in the vicinity of a plant cements the courage of the stakeholders

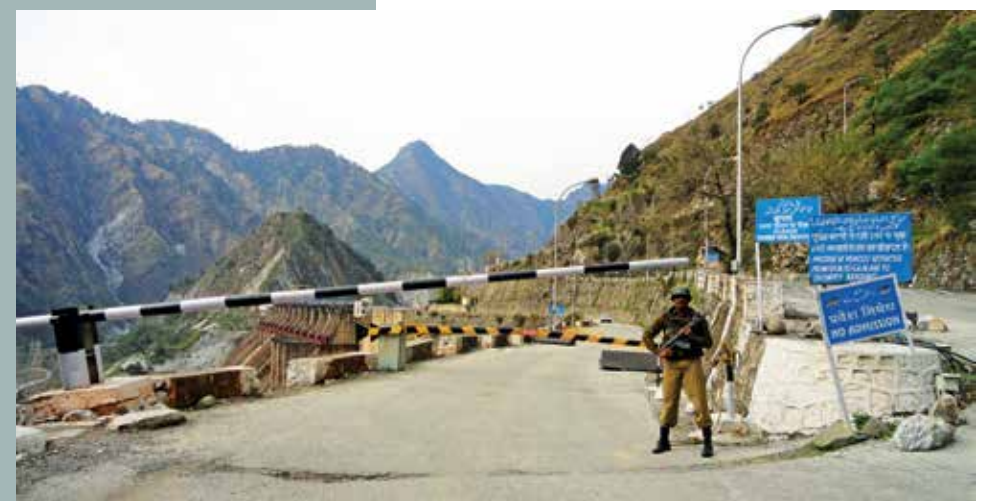

Hydro-Power

India is the world's 7th largest producer of hydro electricity. Our country is endowed with economically exploitable & viable hydro potential, assessed to be about 84,000 MW. In addition, 6780 MW of installed capacity from Small, Mini, and Micro Hydel schemes has been assessed. Also, 56 sites for pumped storage schemes with an aggregate installed capacity of 94,000 MW have been identified. Hydro power sector, by power generation & transmission, flood control, irrigation & fisheries, plays a vital role towards economic growth. CISF is an indispensable part in this exercise, for securing the industrial peace of the country.

The Power Plants of NTPC, NHPC, DVC as well as Tata Power in Mundra, in private sector, are safeguarded by CISF

CISF guards various hydro electric projects of NHPC in the difficult terrain of J & K and Himachal Pradesh

CISF IN MINING SECTOR

Overview

Since Independence, there has been a pronounced growth in mineral production, both in quality and quantity. Of all the 341 industrial units/other establishments that CISF provides security cover to, most challenging is the 'Mining Sector'.

The often unending strikes & violent agitations affected production & led to an unhealthy work environment. Encroachment of mining area by local inhabitants, pilferage & theft were common. Hence, GoI felt a need to strengthen the security infrastructure in mining & industrial areas, which inspired the very idea of an "Industrial Force." This sector has CISF security cover since 1970s.

At present, CISF covers a wide range of mining sectors, which are:- Iron Ore Mines; Coal Mines; Aluminium/Bauxite Mines ; Diamond Mines; Limestone Mines & Uranium Mines

Challenges

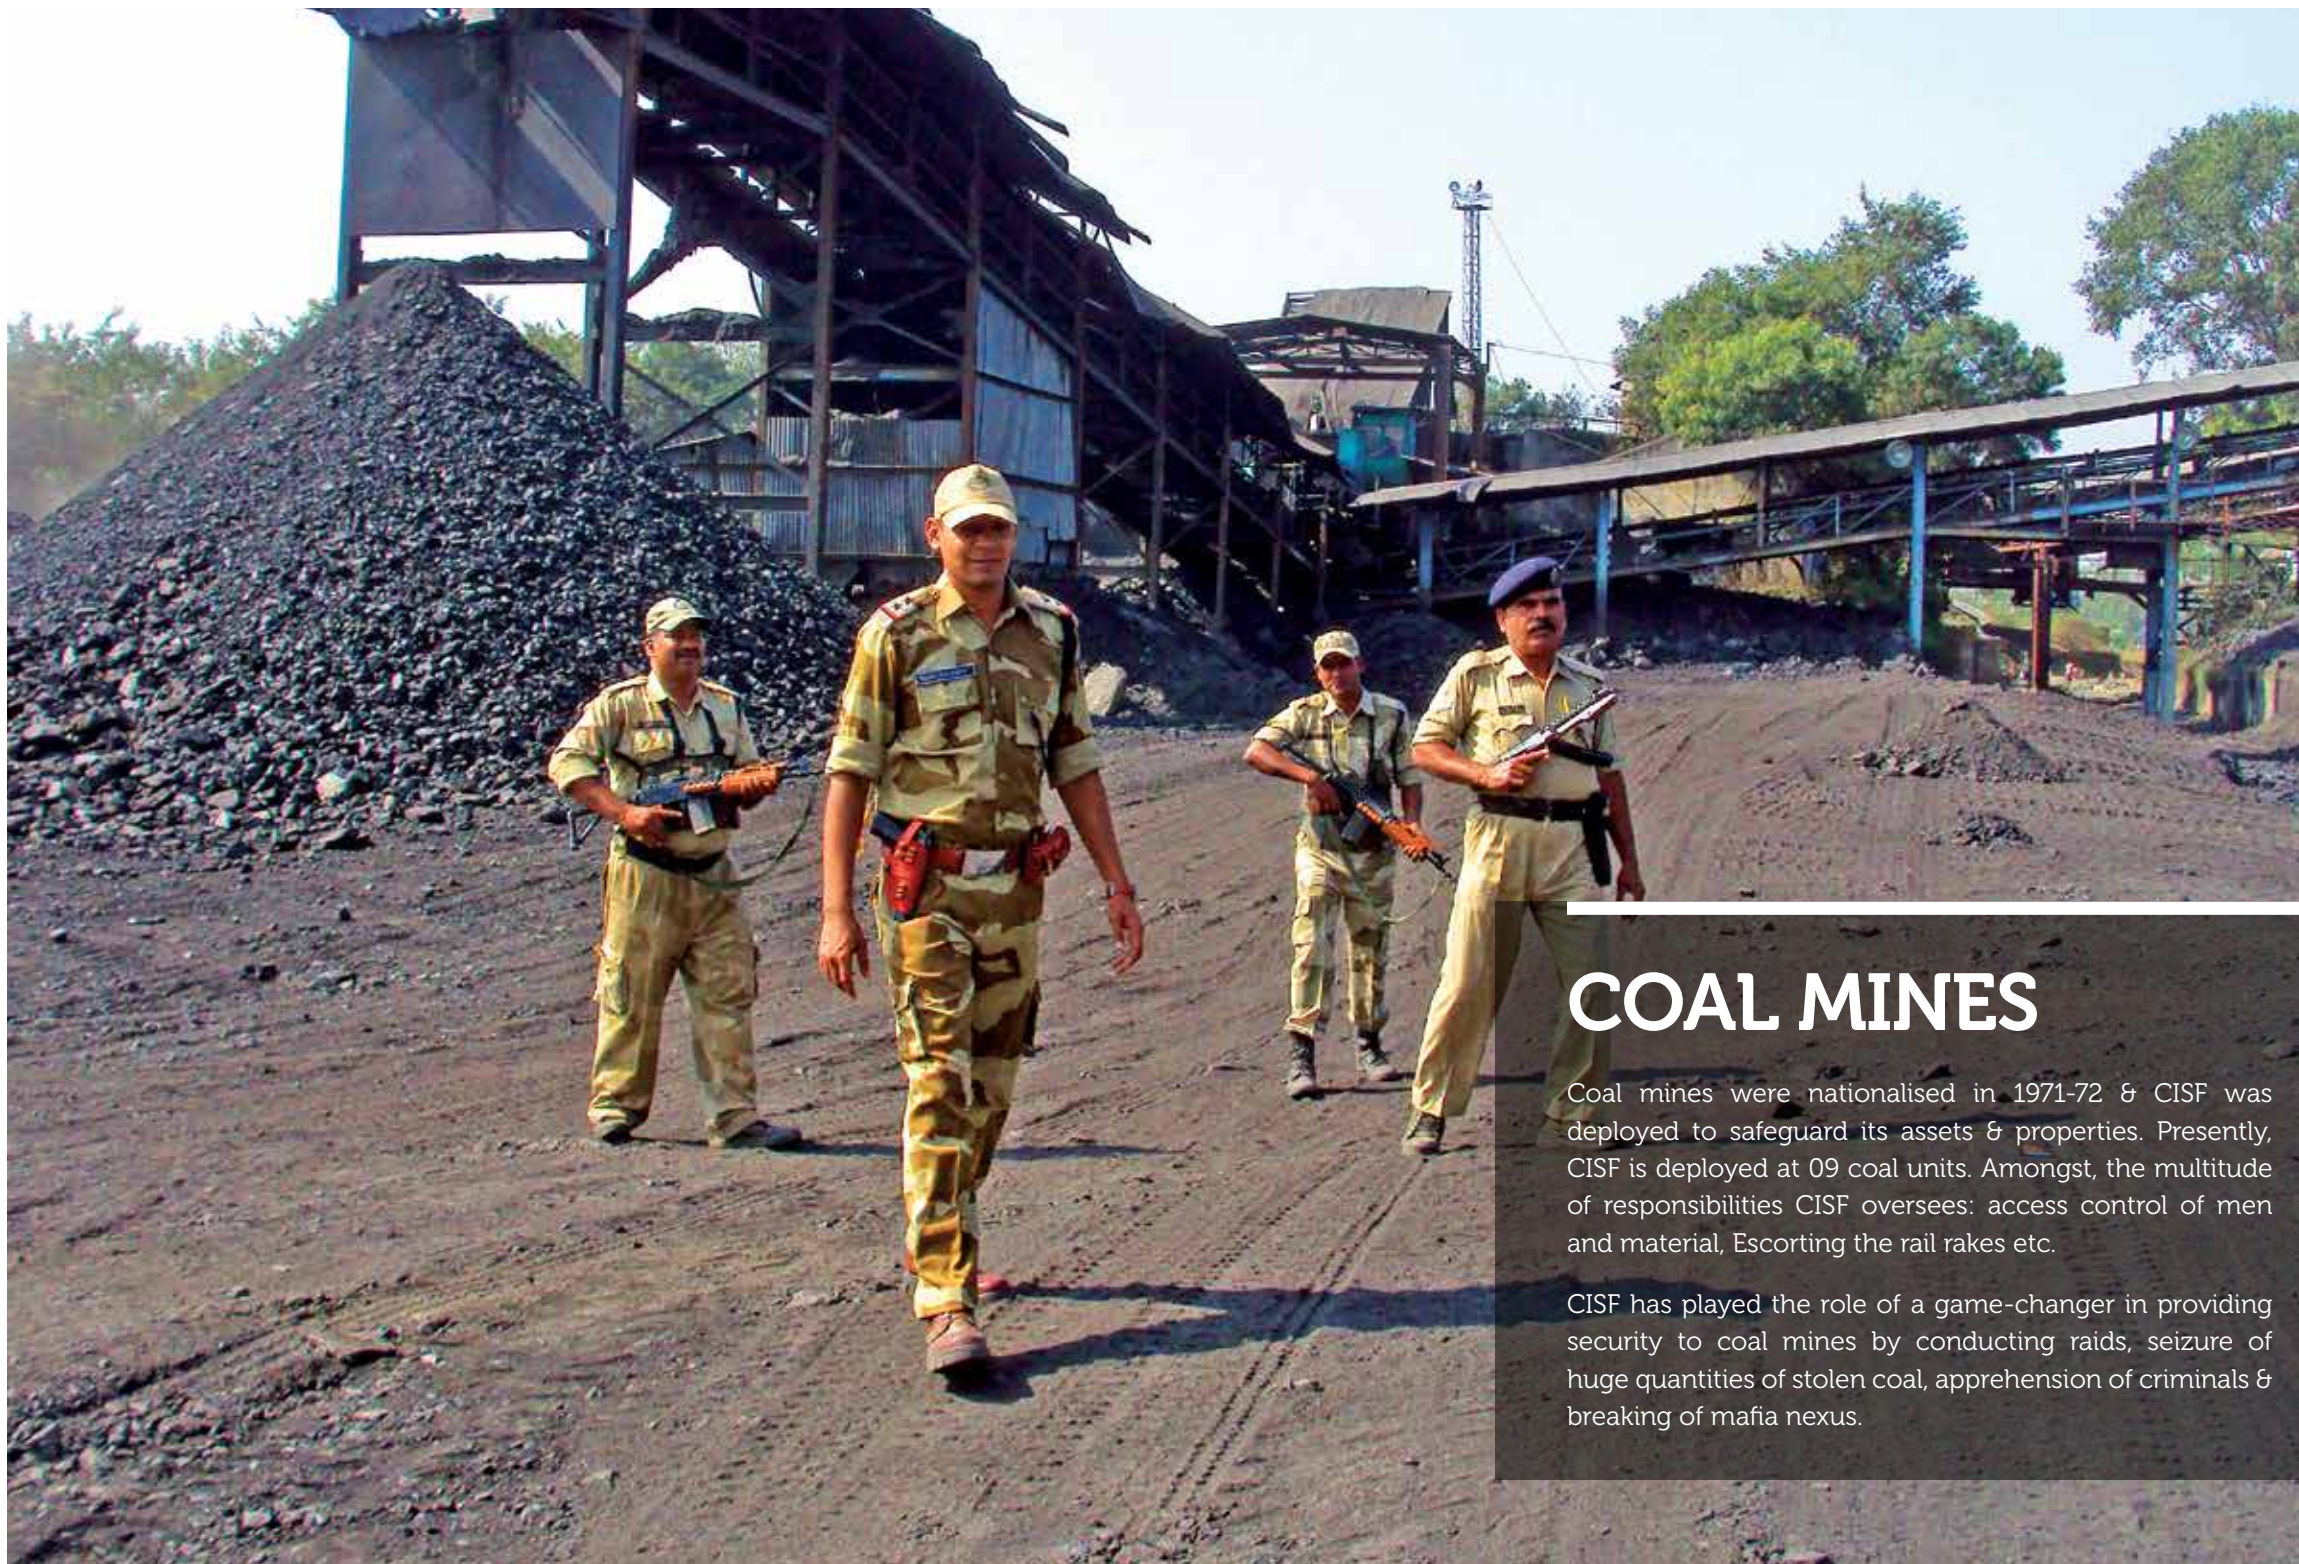

- Prone to thefts and pilferages. *CISF men have succeeded in controlling crime significantly.*
- Mining operations are subject to safety & health hazards for both workers & CISF staff.

Strategy

To contain thefts and pilferages RFID based access control, GPS tracking etc.

Steering the nation by protecting its major
Mines, CISF stands proud & strong !

COAL MINES

Coal mines were nationalised in 1971-72 & CISF was deployed to safeguard its assets & properties. Presently, CISF is deployed at 09 coal units. Amongst, the multitude of responsibilities CISF oversees: access control of men and material, Escorting the rail rakes etc.

CISF has played the role of a game-changer in providing security to coal mines by conducting raids, seizure of huge quantities of stolen coal, apprehension of criminals & breaking of mafia nexus.

Iron Ore Mines

The Raw Materials Division (RMD), under administrative control of SAIL was formed in 1989. It is managing seven Iron Ore Mines namely Kiriburu, Meghahatuburu, Bolani, Barsua, Gua, Kalka & Manoharpur. Out of these, first five mines are protected by CISF. NMDC is producing iron ore through two production complexes in Chhattisgarh, namely, Bailadila Iron ore Mines, Kirandul Complex & Bailadila Iron Ore Mines, Bachheli complex. Both the complexes are also covered by CISF security since May 1973.

Aluminium/Bauxite Mines

National Aluminum Company Ltd (NALCO) was incorporated in 1981 as a PSU, to extract the large deposits of Bauxite discovered in the East Coast. It has Bauxite mines at Damanjodi, Koraput, Orissa. In 1986, due to major clash between two communities inside the plant resulting into death of 8 persons triggered induction of CISF. Though it was not an easy task due to its proximity to Naxal infested areas of Jagdalpur & Malkangiri, but the CISF established itself.

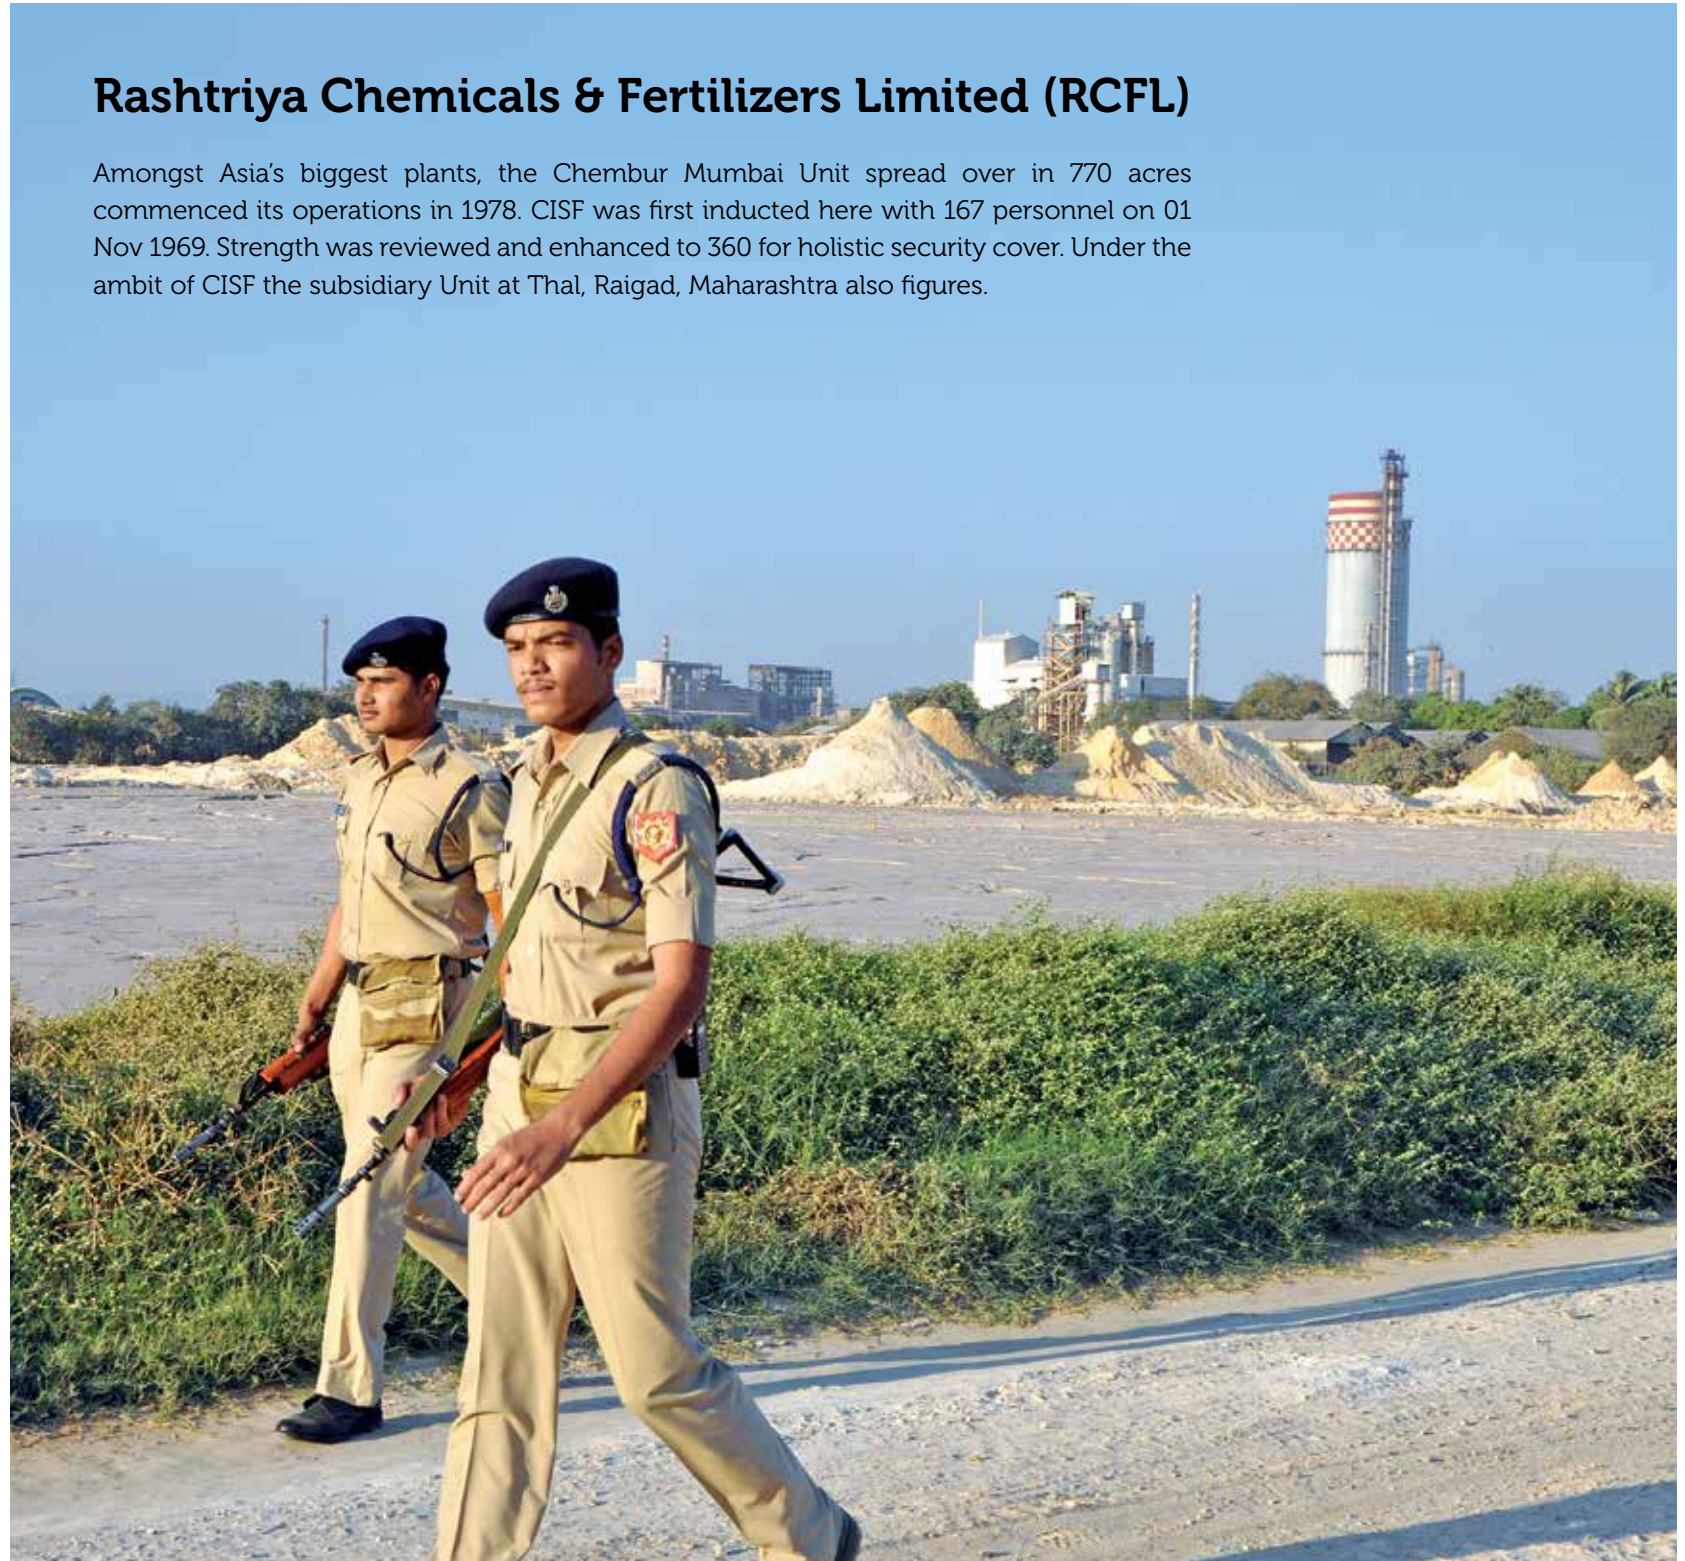

Rashtriya Chemicals & Fertilizers Limited (RCFL)

Amongst Asia's biggest plants, the Chembur Mumbai Unit spread over in 770 acres commenced its operations in 1978. CISF was first inducted here with 167 personnel on 01 Nov 1969. Strength was reviewed and enhanced to 360 for holistic security cover. Under the ambit of CISF the subsidiary Unit at Thal, Raigad, Maharashtra also figures.

CISF IN CHEMICALS & FERTILIZER SECTOR

To support the Green revolution, a large quantity of fertilizers were imported. But to reduce expenditure on import, Fertilizer Corporation of India Limited (FCIL) was established in 1961, to produce fertilizers indigenously, for which a large quantity of chemicals were used. Thus, security of these chemicals became paramount.

CISF IN PETROLEUM & NATURAL GAS SECTOR

Oil sector is the lifeline of our Nation's economy, being one of the six core industries, thus playing a major role in influencing economic decision making. CISF plays a pivotal role as a strategic partner, by providing effective security and a safe & secure working environment.

Induction

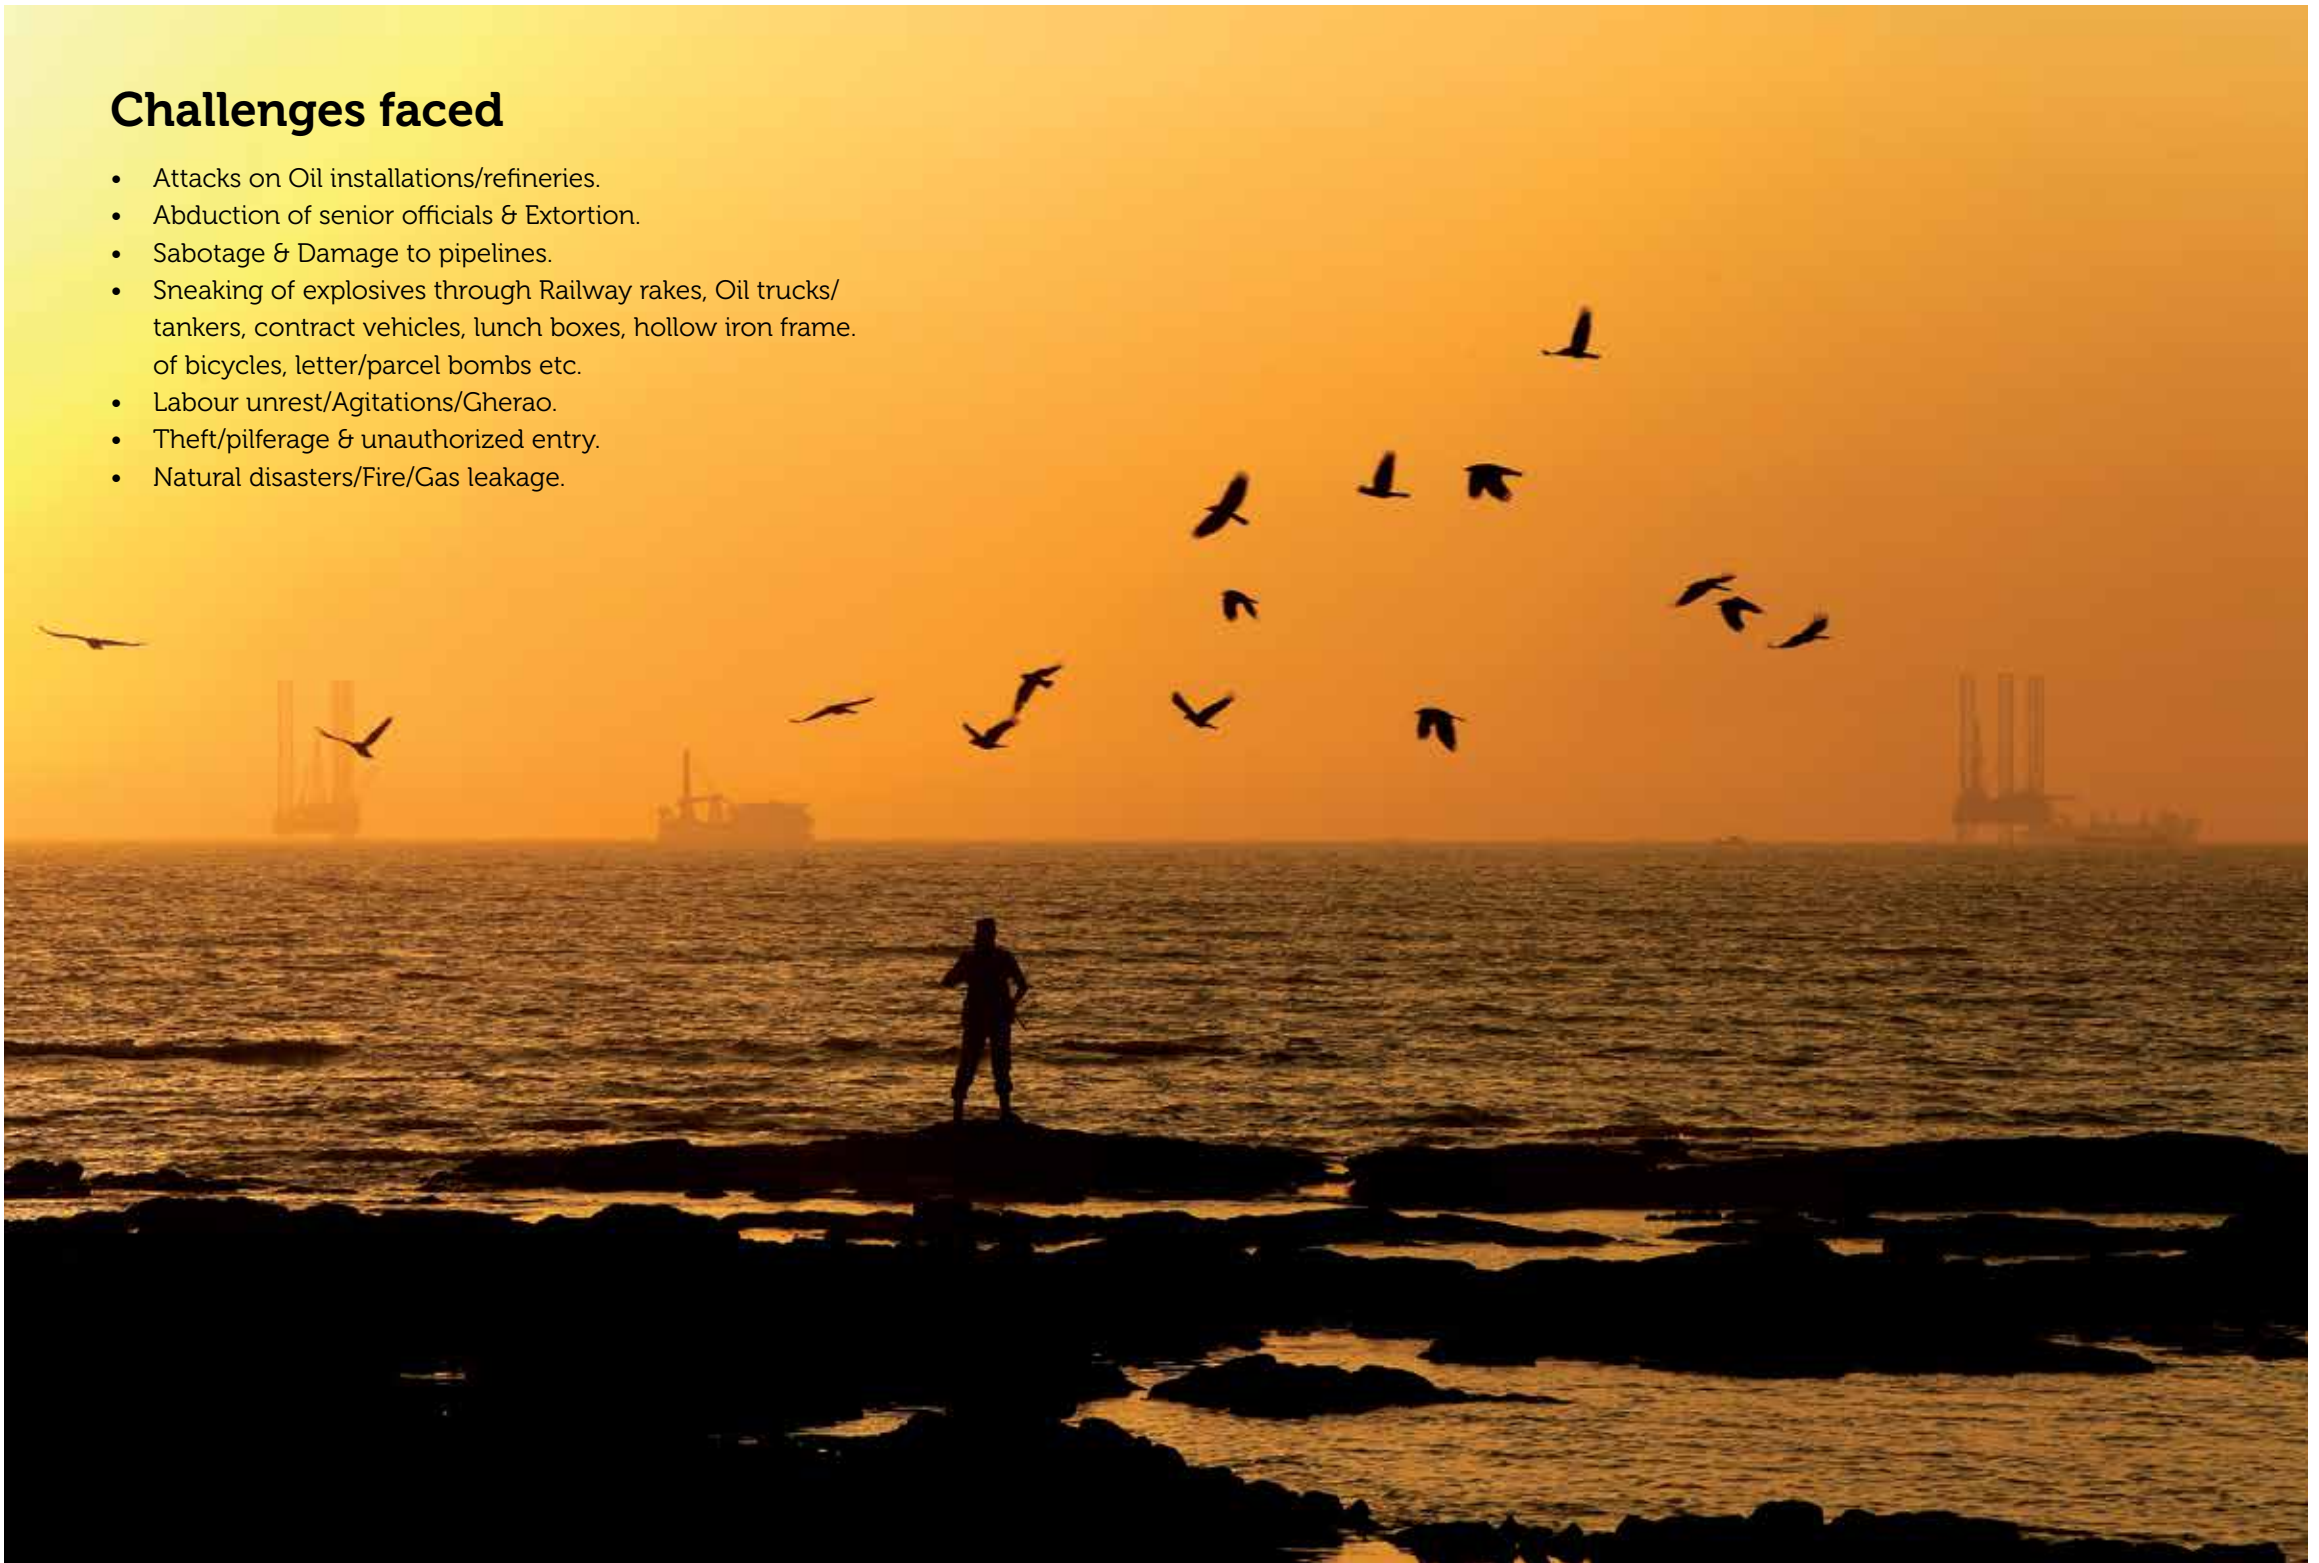

With expansion in oil exploration & other activities by Oil PSUs and to provide a better secured environment & protection of assets, a need was felt for induction of CISF, particularly in the North East, amidst the rise of ULFA. Now, CISF provides security to 36 establishments & fire wing protection to 11 establishment in this sector.

Challenges faced

- Attacks on Oil installations/refineries.
- Abduction of senior officials & Extortion.
- Sabotage & Damage to pipelines.
- Sneaking of explosives through Railway rakes, Oil trucks/ tankers, contract vehicles, lunch boxes, hollow iron frame of bicycles, letter/parcel bombs etc.
- Labour unrest/Agitations/Gherao.
- Theft/pilferage & unauthorized entry.
- Natural disasters/Fire/Gas leakage.

CISF AT DAE INSTALLATIONS

Nuclear power plays an important role in sustainable supply of energy. Existing nuclear power plants are generating 4,780 MW, while seven other units are under construction, likely to generate an additional 5,300 MW. Plans are afoot to generate 63,000 MW by the year 2032.

CISF is deployed to provide safe & secure working environment to scientists working in units under DAE & to protect the critical infrastructure of this highly sensitive sector.

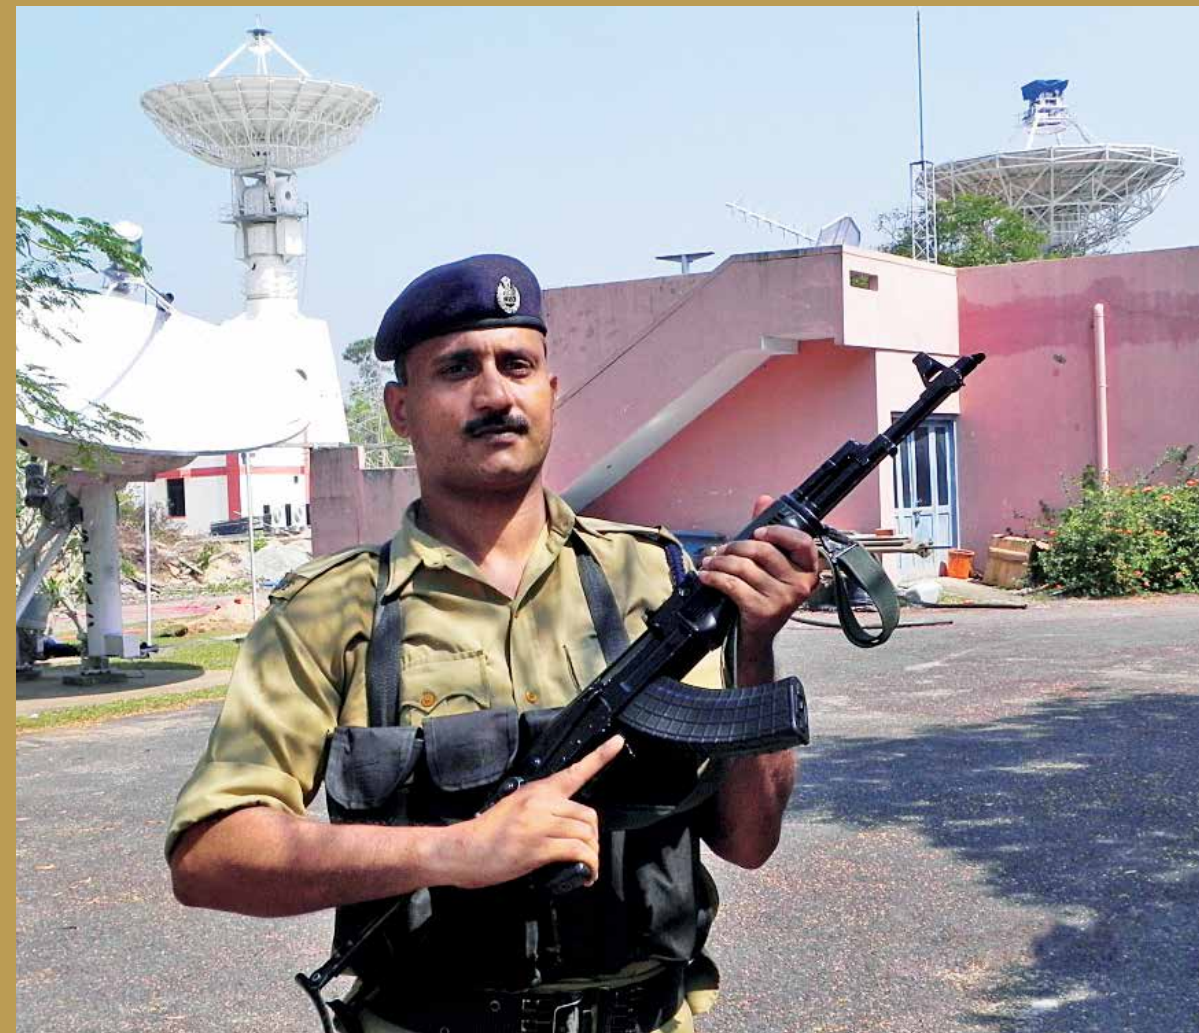

CISF AT DEPARTMENT OF SPACE

It was bifurcated from the Department of Atomic Energy & renamed as Indian Space Research Organisation (ISRO). GoI then created Space Commission & Department of Space (DOS) in 1972. DOS HQs has 02 main divisions i.e. DOS & ISRO. CISF has been entrusted with protection & security of this critical sector.

Importance of VSSC Thumba

An important space research centre, Rockets were developed & launched from Thumba. Current focus of VSSC is on the GSLV Mk-III & Reusable Launch vehicle-Technology Demonstrator (RLV-TD), besides India's maiden mission to the Moon, Chandrayan & in development of an air-breathing vehicle. VSSC also has programs focused on applications of space technology, including village resource centre, telemedicine, tele-education & outreach through DTH TV broadcasts. Two iconic personalities, Dr Vikram Sarabhai & Dr APJ Abdul Kalam were associated with VSSC Thumba. CISF was inducted on 27 Nov 1971.

Satish Dhawan Space Centre, Sriharikota, AP

CISF was deployed here in April 1973. Keeping in view the global terrorism trends & threats to installations, it has been constantly reassessing its efficacy.

Space Application Centre (SAC), Ahmedabad

SAC is a major R & D centre of ISRO, formed in 1972. Communication transponders are developed here for Indian National Satellite (INSAT) & Geo Synchronous Satellite (GSAT) series of satellites. CISF was deployed here on 15 July, 1973.

Physical Research Laboratory (PRL), Ahmedabad

Founded by Dr Vikram Sarabhai, it was formally established in Nov 1947. Being a sensitive installation, CISF was inducted in 1973.

Space, the final frontier! CISF guards all space installations

Holding the Fort at DAE

In 1972, a decision was taken to hand over the security of two major DAE installations viz DAE Kalpakkam & UCIL Jaduguda, to CISF, due to their sensitivity.

Road ahead at DAE

- With 10 more reactors to be built, task of securing them is bound to be shouldered by CISF.
- DAE formed an Electronics & Instrumentation Group in BARC, which continuously evaluates/ audits, using R&D, for indigenously developing latest security architecture.
- DAE has been granted NOC to fly surveillance drones at Kalpakkam, to monitor sea & river front maritime zones.
- With major DAE installations located on the waterfront & a long coast line,

security breach is an imminent threat. Patrolling by beach boats/amphibious sea legs is needed. Towards further enhancing security, trials are on with surveillance radar-Mantra S-developed by DRDO, which can scan the sea up to 15 kms.

- Presently, GPS is used for operational purposes & to track suspicious movements. The Indian satellite is designed to provide accurate information to users within the country.

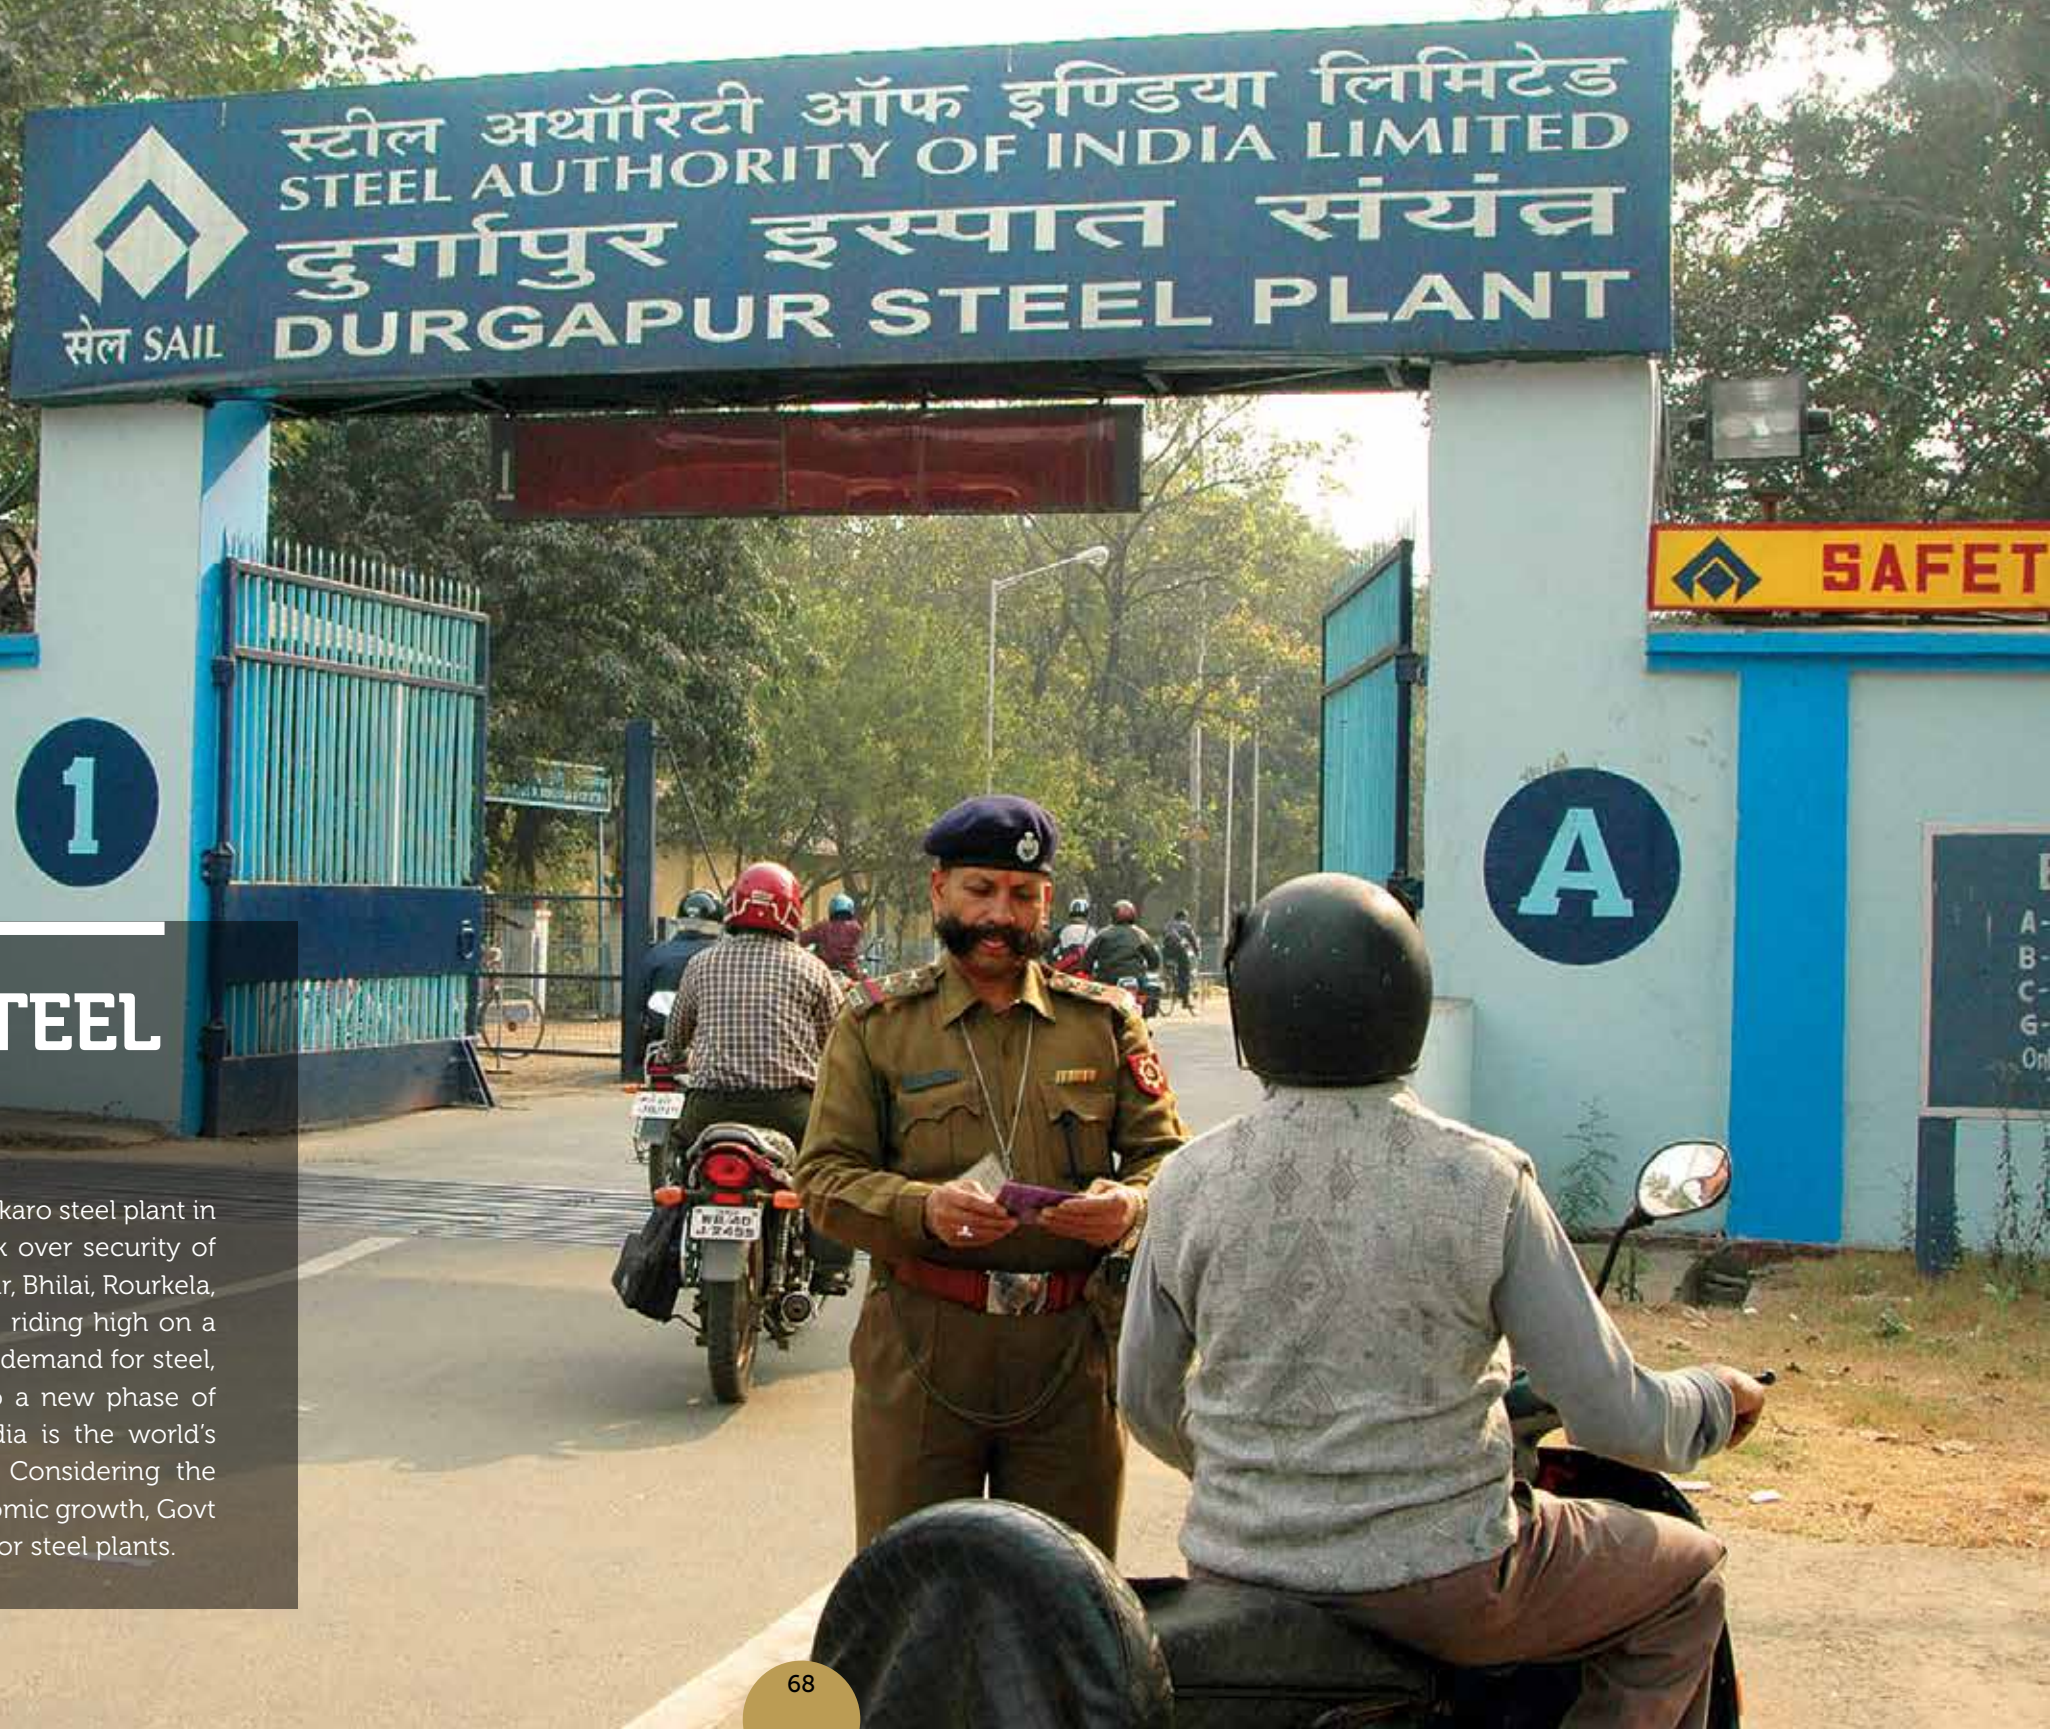

With the nuclear sector undergoing a paradigm shift, CISF has been honing its skills for efficacious security of nuclear material

CISF IN STEEL SECTOR

CISF was first inducted at Bokaro steel plant in Nov 1969. Thereafter, it took over security of other steel plants at Durgapur, Bhilai, Rourkela, Burnpur etc. From 2005-06, riding high on a resurgent economy & rising demand for steel, this sector has entered into a new phase of development. Presently, India is the world's 4th largest steel producer. Considering the importance of Steel in economic growth, Govt has deployed CISF at all major steel plants.

**A difficult induction: CISF
at Durgapur Steel Plant:
*R Balasubramanyam, Former
DIG, CISF recounts***

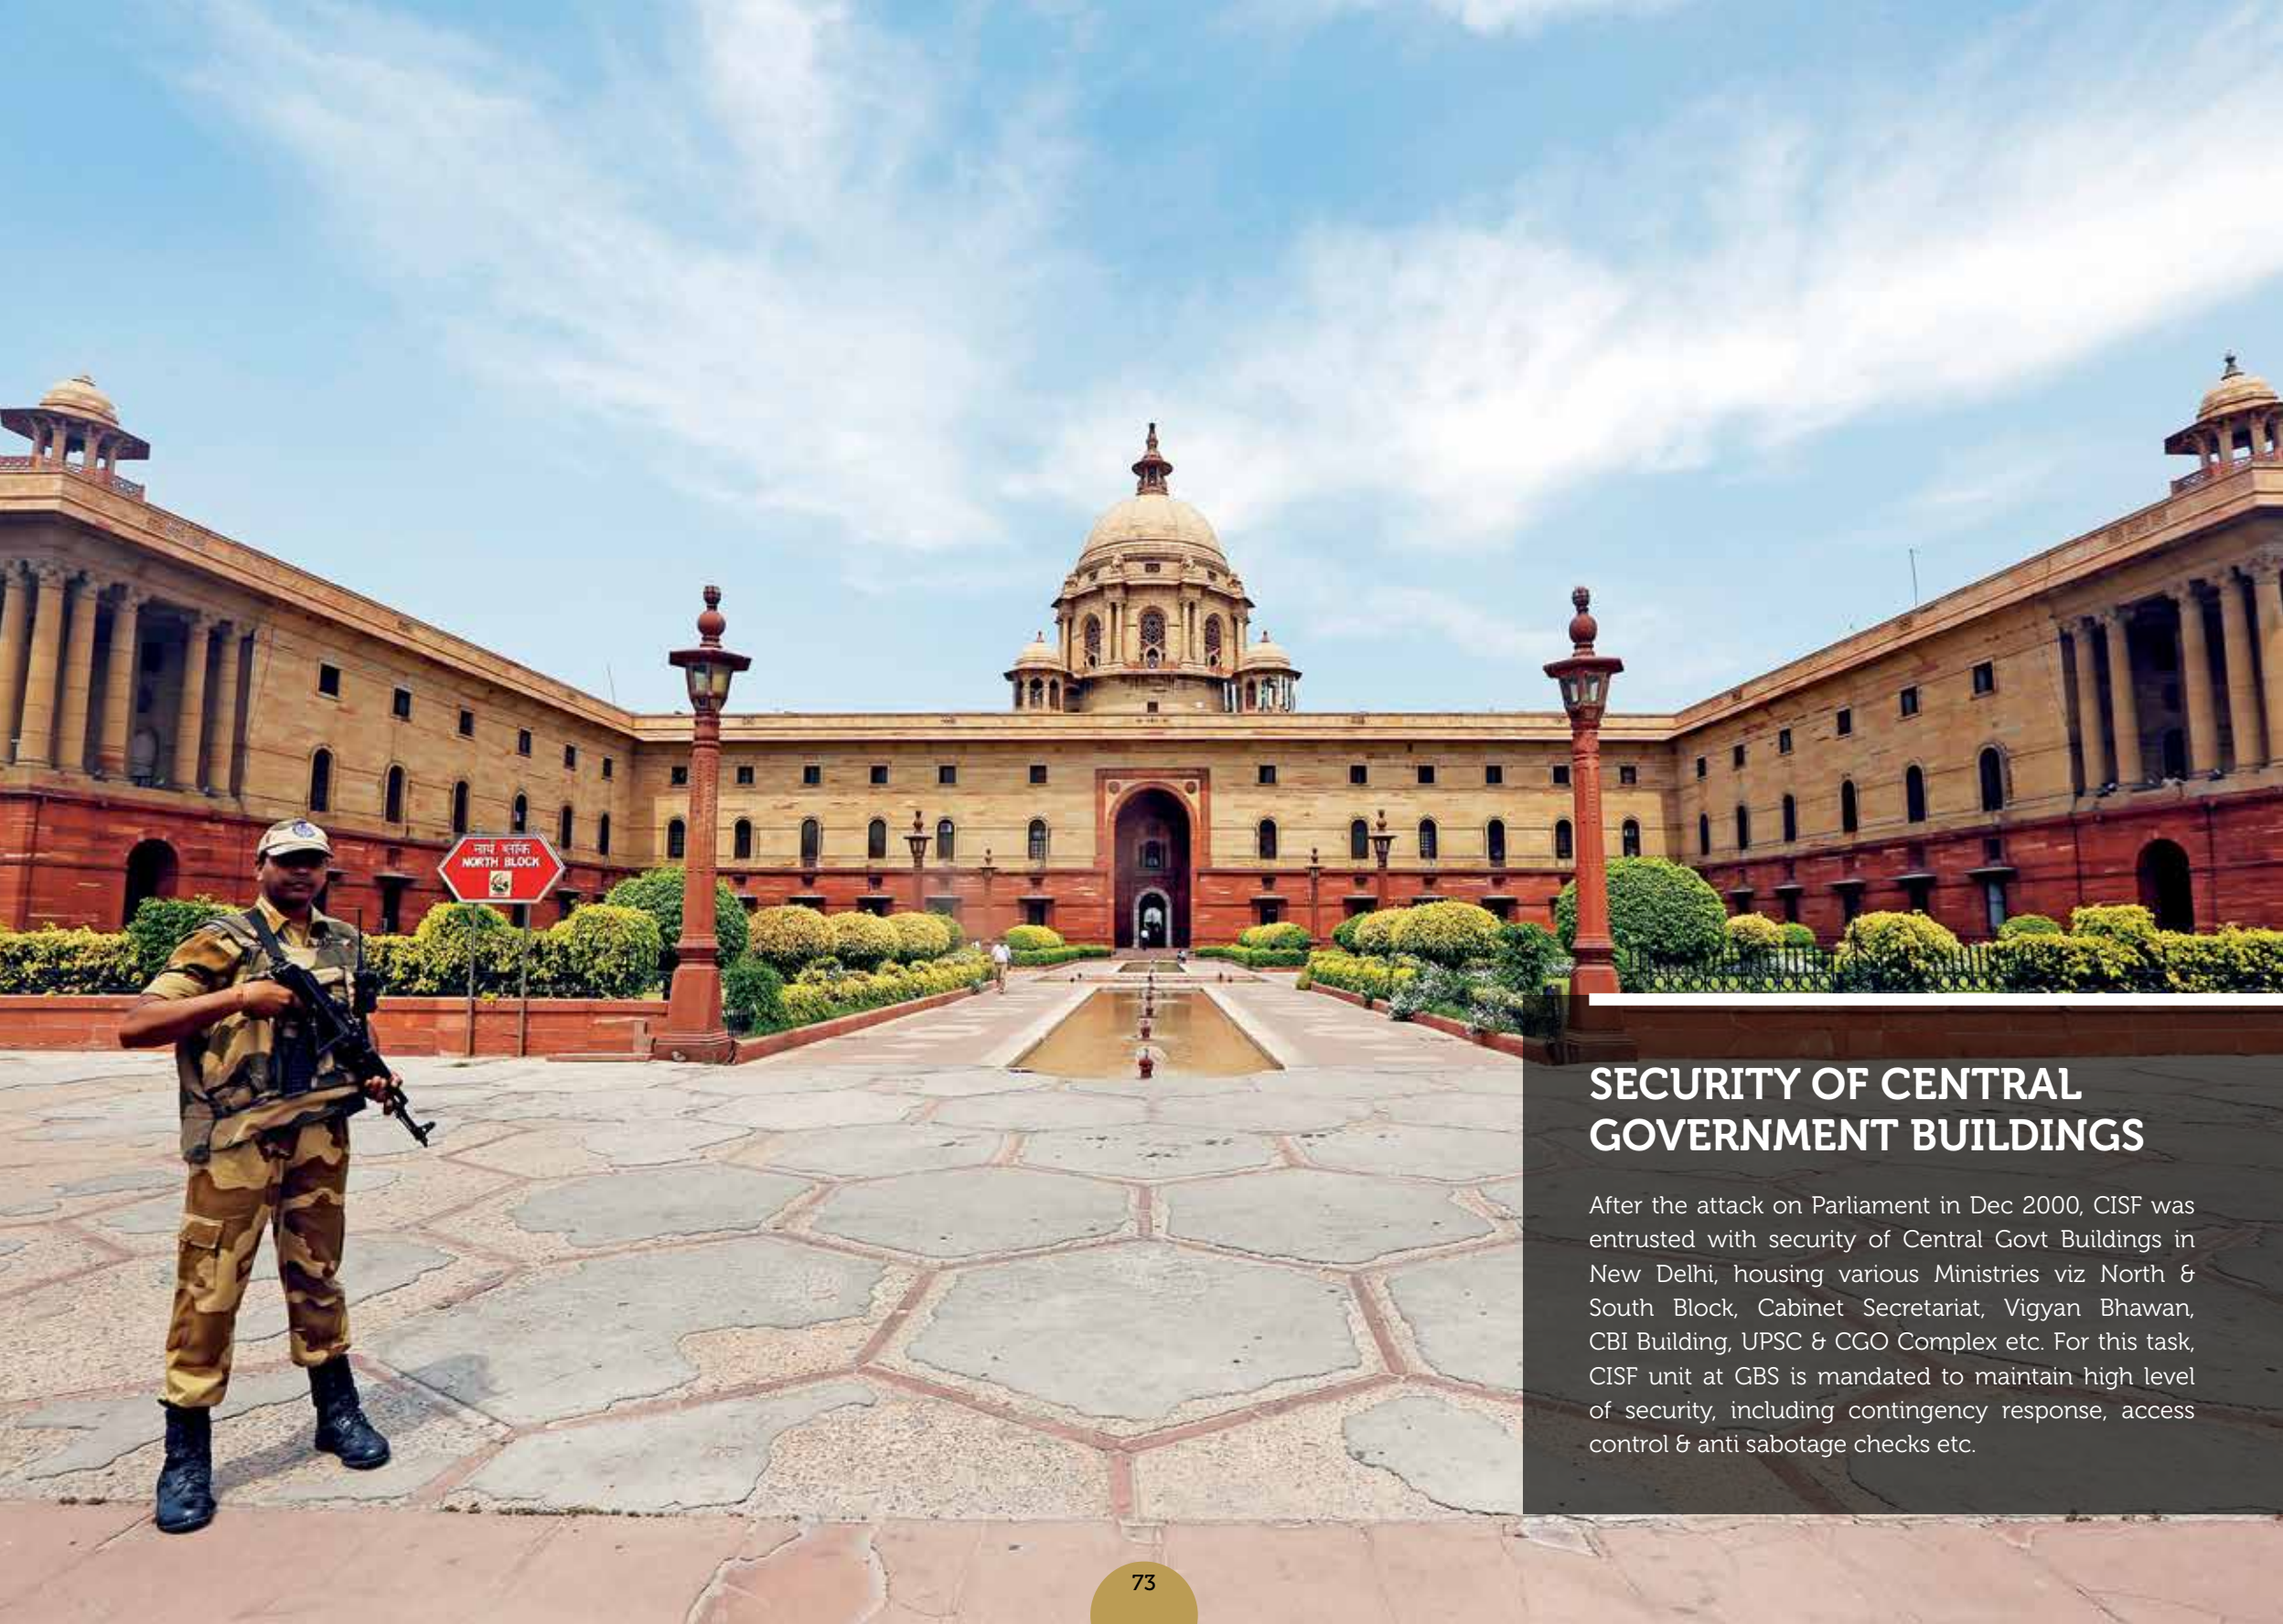

"I was privileged to lead the first induction of CISF in the Durgapur steel plant on 3rd August, 1970. Durgapur was in the thick of naxalite activities in those days. The watch & ward staff, who also were members of the union, hardly attended to their work. The result was that even loyal workers were intimidated & prevented from doing their job. It was then that GoI took steps to induct the newly-formed CISF in the plant, which was opposed tooth & nail by the workers/unions."

The CISF edge! Protecting & securing our economic assets is CISF's forte

*Eternal vigilance is the price of liberty ... CISF
mandated to protect important Govt buildings*

SECURITY OF CENTRAL GOVERNMENT BUILDINGS

After the attack on Parliament in Dec 2000, CISF was entrusted with security of Central Govt Buildings in New Delhi, housing various Ministries viz North & South Block, Cabinet Secretariat, Vigyan Bhawan, CBI Building, UPSC & CGO Complex etc. For this task, CISF unit at GBS is mandated to maintain high level of security, including contingency response, access control & anti sabotage checks etc.

Securing our National Heritage

The splendour of our heritage enriches our lives and illustrates the diversity of our culture & its inhabitants. Heritage of outstanding universal value are ours to share, to protect & to respect. All these institutions of national importance are our pride, the protection of which is the onerous responsibility of CISF.

Monuments like Taj Mahal & Lal Quila have been identified as world heritage sites by UNESCO, others like National Museum New Delhi, Salarjung Museum, Hyderabad, Victoria Memorial, Kolkata & Samadhi Sthal, which includes Rajghat in New Delhi, are repository of our national heritage of great value.

*Pan India deployment to guard and
protect our iconic national heritage*

Salarjung Museum, Hyderabad

Security of Delhi Metro

CISF took over the security of DMRC on 15 Apr 2007. Presently, more than 5000 CISF personnel are deployed, ensuring highest level of security with minimum inconvenience to commuters at Metro Stations. Present footfall in Delhi Metro is more than 28 lakhs per day. CISF has also taken a number of measures for building confidence of women commuters in the Metro.

I asked my soul : what is Delhi? She replied : "The world is the body & Delhi its life" - Ghalib
CISF Protecting Delhi's lifeline - Delhi Metro

CISF AT GOVT MINTS & BANK NOTE PRESS

Mints and Bank Note Press are the backbone of India's financial structure. CISF has been entrusted with the security of all Mints & Bank Note Press.

Noida Mint, UP

To cater to increasing demand for coins in India, in 1984, GoI established a new mint in Noida, UP with an annual capacity of 2,000 million coins. It began production on 01 July 1988 & produced the first stainless steel coins. CISF was inducted here in Jul 2007.

Alipore Mint, Kolkata

Alipore Mint was opened on 19 March 1952, with full operations for coinage & preparation of medals, decorations & badges. CISF was inducted here in Aug 2013.

IG Mint, Hyderabad

Established in 1803 as a private Mint, it served the Nizam of Hyderabad. CISF was inducted here in March 1972.

Mumbai Mint

Initially governed by the Governor of Bombay Presidency, this mint was transferred to the erstwhile Govt on 18 May 1876. Besides coins, it produces medals for Home & Defence Ministries, educational & social service institutions etc. It also issues gold ingots. CISF was inducted here in May 2016.

बैंक नोट प्रणाली सेवा

Securing critical
economic installations

SECURITY OF BANK NOTE PRESS

A peculiar feature of press units is their high value sovereign print products like Currency Notes, Insurance papers, Warehouse Registration Certificates, Currency Coins, Circulation Coins, Patrika Commemorative Coins, Medals & Mementoes, Postal Stationery, Stamps, Gold Processing & Refining, Weights & Measures, Field Standard Test Measure etc.

The first CISF unit inducted was at BNP, Dewas in 1972. This was followed by induction at ISP, Hoshangabad (1975), BRBNMPL Salboni (1992), BRBNMPL Mysore (1994), CNP Nasik (2002), ISP Nasik (2002), Over time, CISF has developed domain expertise in providing security to various financial installations, making itself functionally competent in drawing & implementing security plans.

CISF AT PORTS & SHIPYARDS

CISF AT SEA PORTS SHIPYARDS

Sea ports in India have played a crucial role in development of maritime trade, which accounts for over 95% of India's total cargo by volume & 70% by value.

India has 13 major and 176 non-major ports, strategically located on the world's shipping routes, most of which were established after Independence, while a few like Kolkata, Chennai & Mumbai go back more than 100 years (set up by Britishers). Considering the sector's importance, CISF was assigned for security of all major sea ports and of shipyards.

*CISF anchors & roots ! Port security is one of our
highest priorities & responsibility*

Mazagon Dock Ltd, Mumbai

CISF was inducted here on 17 Aug 1984. This premier ship building yard, founded in 1934, produces sophisticated war ships for Indian Navy, offshore vessels & platforms for ONGC, offshore patrol vessels for Indian Coast Guard & floating police stations for BSF. CISF induction has brought in tremendous improvement in security situation.

Cochin Shipyard Ltd, Cochin

CISF was inducted here on 01 March 1971. Spread over 70 hectares, this shipyard is engaged in ship building & repair, plus marine engineering training activities. It constructs ships of all types/sizes. CSL repairs & refits all types of ocean going & other defence vessels. Subsequent to CISF's induction, security infrastructure was created, functions codified, SOPs made & ISPS code were complied with.

Goa Shipyard Limited, Goa

CISF was deployed at GSL Goa on 27 Feb 1992. GSL is located on the West Coast of India at Vasco-da-Gama, Goa. Established in 1957, it has built various types of vessels including barges, tugs, landing craft, offshore patrol vessels and other vessels for the Indian Navy and Coast Guard.

Garden Reach Shipbuilders & Engineers, Kolkata

CISF was inducted in GRSE recently, on 26 May 2016. This shipyard builds & repairs naval and commercial vessels and is the first to build 100 warships. After CISF's induction, security environment here has improved.

First Induction: Kolkata Port Trust, Kolkata

CISF was inducted in Kolkata Port Trust on 18 Feb, 1971. The decision to induct CISF was taken to deal with organized theft in the docks. Escalation of Indo-Pak tensions over East Pakistan & increased threat of sabotage activities, also called for better security.

Mumbai Port Trust

This port lies midway on the West coast of India. The harbour opens in the south of the Arabian Sea & is spread over 400 square kms. It is primarily used for bulk cargo. CISF was inducted here on 21 April, 2010.

VPT, Vizag

Located in Andhra Pradesh, on the East coast, it is India's second largest port by volume of cargo handled. CISF was inducted here on 25 August, 1971.

Jawaharlal Nehru Port Trust, Nhava Sheva

Commissioned on 26 May 1989, Jawaharlal Nehru Port Trust (JNPT) has charted India's international trade to a course of success & achievements. JNPT is the biggest container handling port in India. CISF was deployed at JNPT on 01 Dec, 1984.

Cochin Port Trust

The need of a modern port was first felt by Lord Wellington, the then Governor of Madras Province .The opening of Suez Canal made several ships pass near the West coast & he felt the necessity of a modern port in Southern India. The strategic importance of Cochin during WW II was an immediate reason for construction of the harbour, which was crucial in the shaping of Cochin as a modern urban city. CISF was deployed here on 01 March, 1971.

PPT, PARADIP

In 1948, GoI's Port (Technical) Committee determined that an additional port was required between Visakhapatnam & Calcutta. The need became particularly obvious following partition, when Dhaka Port was separated from India. In 1950, construction was initiated in Paradip on Mahanadi river. CISF was deployed here on 17 Nov 1972.

Boat patrolling at seaports is a routine activity for CISF's troops

Our Commandos in readiness, to counter any threat

NMPT, Mangalore

New Mangalore Port is a deep-water, all-weather port at Panambur, Mangalore, Karnataka. The port serves hinterland of Karnataka & to some extent State of Kerala. CISF was deployed here on 15 Apr 1980.

MPT, GOA

Mormugao is a sub-district in South Goa. It is Goa's main port and became a Major Port in 1963. It is the leading iron ore exporting port of India, with an annual throughput of around 27.33 million tonnes. CISF was inducted here on 03 Mar 1971.

CISF takes pride in being solely responsible for the economic peace of the Nation

Kandla Port

Erstwhile Kandla Port, (presently Deendayal Port Trust), was commissioned in 1931. Located on the Gulf of Kutch on West coast , it is India's largest port. CISF was inducted here on 12 May, 1999.

Tuticorin Port

Tuticorin Port, known as V.O. Chidambaranar Port, is one of the Major Ports in India. It was declared to be a Major Port on 11 July 1974. It is the second-largest port in Tamil Nadu and fourth-largest container terminal in India. CISF was inducted here on 16 Sept, 1971.

Chennai Port

It is the second largest container port of India & third oldest among the 13 major ports. Operations began here in 1881. It is an artificial, all-weather port with wet docks. Once a major travel port, it became a major container port, post Independence. CISF was deployed here on 31 Aug 1972.

Improvement in Port Security post CISF induction

Though each port has a unique security requirement, broad parameters of security are similar. Hence, CISF could address various security issues, drawing strength from International & National legislative & policy initiatives, especially in becoming ISPS compliant. The measures adopted are :

- Dynamic Access Control
- Securing the Port Water front
- Security of Vital Installations in Port
- Building Emergency Response Mechanisms
- Control room & Communication mechanism
- Improved Surveillance & Intelligence gathering
- Induction & continuous Training
- Active Screening of passengers, ship crew
- Audit & Inspection under provisions of ISPS Code
- Responsibility of Disaster Management

MINISTRY OF LAW AND JUSTICE
(Legislative Department)

New Delhi, the 16th March, 2009/Phalguna 25, 1930 (Saka)

The following Act of Parliament received the assent of the President on the 16th March, 2009, and is hereby published for general information:—

THE CENTRAL INDUSTRIAL SECURITY FORCE (AMENDMENT)
ACT, 2009

No. 22 of 2009

[16th March, 2009.]

An Act further to amend the Central Industrial Security Force Act, 1968.

Be it enacted by Parliament in the Sixtieth Year of the Republic of India as follows:—

1. (1) This Act may be called the Central Industrial Security Force (Amendment) Act, 2009.

Short title and commencement.

(2) It shall be deemed to have come into force on the 10th day of January, 2009.

2. In the Central Industrial Security Force Act, 1968 (hereinafter referred to as the principal Act), in section 2,—

Amendment of section 2.

(a) after clause (ca), the following clause shall be inserted, namely:—

“(cb) “joint venture” means a venture jointly undertaken by the Central Government or State Government with private industrial undertaking;”;

50 of 1968.

**CISF is committed to protect value driven
intellect at critical private sector establishments**

Infosys

CISF IN SECURITY OF PRIVATE SECTOR

With the growing threat of terrorist outfits, industries in private sector/joint ventures, which are contributing immensely to the growth of the Indian economy, approached GoI for CISF cover. Thus, CISF Act was amended by Parliament to enable its deployment in private sector.

CISF QRTs continue to provide security cover round the clock, to the private establishments

CISF-Infosys Bengaluru

CISF was inducted on July 31, 2009.
This is the first Induction in Private Sector.

CISF-Electronics City Bengaluru

CISF was inducted at Electronics City, Bengaluru on Jan 01, 2010,

CISF-Infosys, Mysuru

CISF was inducted at Infosys Mysuru, on March 26, 2010, on Quick Reaction Team (QRT) pattern, to thwart any armed attack by terrorists.

CISF-RIL Jamnagar, Gujarat

CISF was inducted here on Oct 10, 2010. RIL with its security component backed by CISF is ensuring fool proof security.

CISF-Infosys, Pune

CISF was inducted here in April 2011. Infosys & its subsidiaries have a lakh plus employees, in a campus spread over 138 acres, with 41 buildings & 6 lac sq ft of office area.

CISF-Coastal Gujarat Power Limited, Mundra, Gujarat

CISF was inducted in this reputed 100 year-old Ultra Mega Power Plant in Sep, 2015 & total area is 1200 hectares, with five units of 800 MW each, that generate 4000 MW of power.

CISF-Reliance Corporate Park, Navi Mumbai

RCP, with 30,594 employees, is a vital and integral part of India's economy, owing to its capacity & contribution to the nation's GDP. CISF was inducted here in March, 2017.

CISF-Tata Steel Ltd. Kalinganagar, Odisha

CISF was inducted here in Dec, 2015. Emphasis is on deployment of QRTs at extremely critical/vulnerable locations of the Plant.

CISF-Patanjali Food & Herbal Park Ltd., Haridwar

CISF was inducted here in March 2016, for better protection & security. Spread over 120 acres, it comprises 22 units which work round the clock, employing 10,000 workers & 3,500 executives.

*Women Commandos are no less than their male counterparts,
when guarding the Nation's vital installations*

Women Power

CISF takes pride in having the largest percentage of women personnel amongst all CAPFs. Women troops have substantial presence at Airports, Government buildings, Heritage monuments, Delhi Metro, Atomic Energy and Space installations. The first batch of women constables was inducted in 1987, followed by SIs in 1990 & ASIs in 2010. The first woman officer joined CISF in the rank of Asstt. Comdt in 1989.

There has been a spurt in women joining CISF in various ranks, post induction at Airports & Delhi Metro.

Honing her shooting skills to perfection, a lady constable aims to kill

RECRUITMENT AND EMPLOYMENT OF WOMEN

Women in CISF are inducted in all ranks barring few professions like armourers, fire wing etc. Women officers and personnel do not have gender-specific task and perform all operational duties including Commando, QRT, Crime prevention, Intelligence etc. like their male colleagues.

A select group of women from the Airport sector, Delhi Metro, Government buildings' security have recently been trained in the Filipino martial art for women-**Pekiti-Tirsia-Kali**.

Always alert, our lady constables never let down their guard

Be it unarmed combat or water rescue, ladies in CISF are always upto the mark

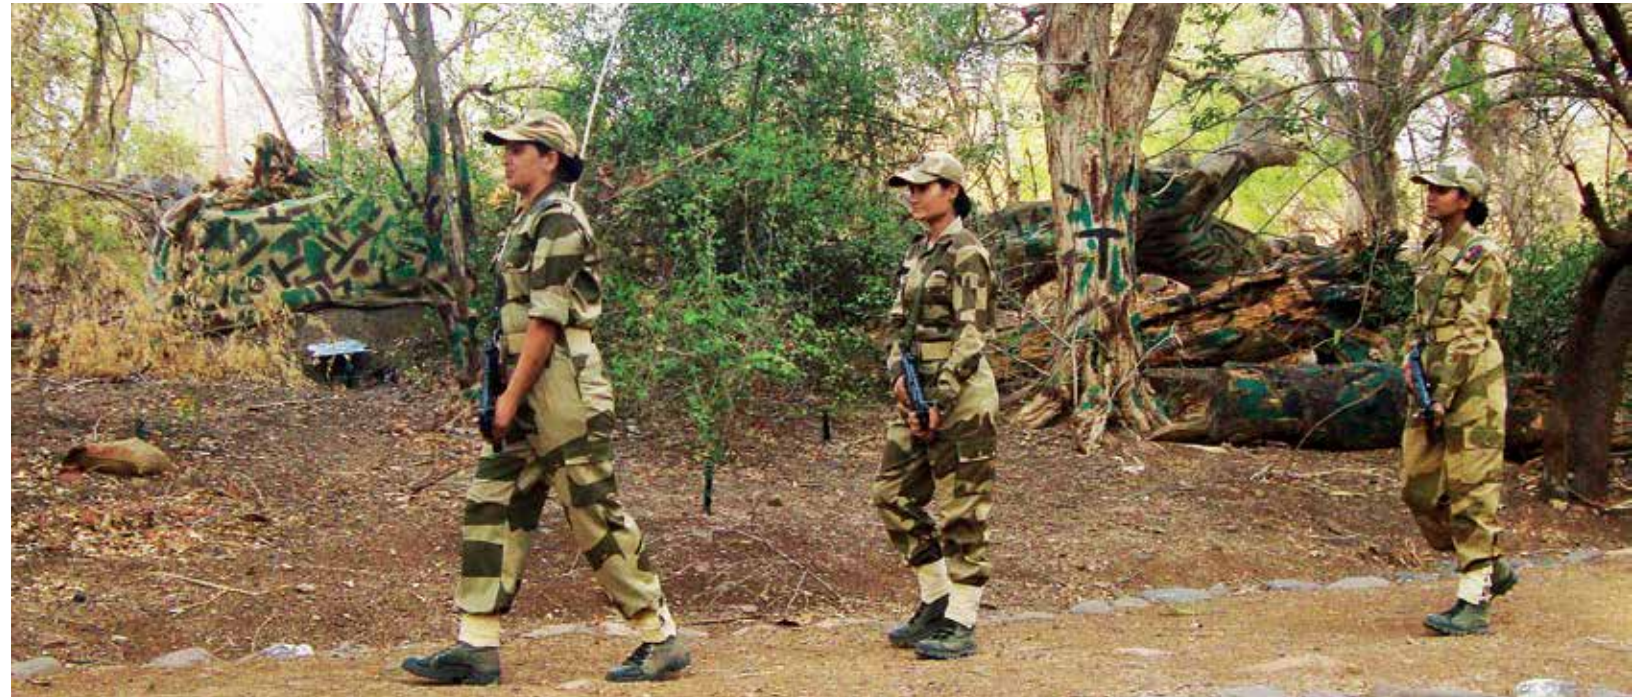

*Our lady dare devils can go
through any fire or storm*

Lady shooters honing their Reflex Shooting Skills

No obstacle is big enough, whether to patrol or crawl through !

*Securing the critical national infrastructure,
be it the Delhi Metro, Oil Industries or Ports*

*Persistence ... Perfection... Power... Passion... Women Commandos.
CISF has the largest percentage of Women amongst all CAPFs*

WOMEN IN SPORTS

Women in CISF have consistently excelled in the Sports arena, having actively participated in the Asian/Commonwealth/World Police Games as well as All India & State Police games & National tournaments. AC Bharti Singh, AC Chaya Adak & Inspector Anjali Bhagwat represented the country during Asian & Olympic games & won laurels for the Force. Inspector Kuheli Ganguly is an ace-shooter & has made the country proud. She represented CISF in the 50 m Rifle Prone Event & won the National Championship with a new national record of 626.5 Points. Besides, a large number of women have won medals at various National & International Sports events.

*Physically fit and strong - we
are an asset to the Force.*

PROUD OF UNIFORM

Women in CISF take great pride in their uniform. In fact, some are of the opinion that women are prouder & more particular about their uniform than men. Attired in crisply ironed shirt and trouser, creases as sharp as knives, hair perfectly coiffured, CISF women personnel can take on the world, and say it was all in a day's work !

CISF's women contingent smartly turned out during the Raising Day Parade-2017

Maintaining constant vigil at the Delhi Metro stations is no mean effort

Securing not only our Nation, but the world's frontiers and assets... CISF's foreign contingents have always excelled in peace keeping operations

CISF in Foreign/UN Missions

FIRST UN MISSION (UNTA) TO CAMBODIA: 1992

India is a charter member of the United Nations and is regularly contributing troops to UN's peacekeeping operations. One such peacekeeping operation was the United Nations Transitional Authority in Cambodia (UNTA) which was established in Feb 1992, under UNSC Resolution No 745, in agreement with the State of Cambodia. In the history of UN, it was the first occasion when the UN had taken over the administration of an independent state & thereafter organized an election there. The mission was responsible for promoting & safeguarding human rights at all levels.

UN MISSION (MINUSTAH) IN HAITI: 2008

It was a landmark in the history of CISF, when a 140 strong CISF contingent became an integral part of UN Mission in Haiti. (MINUSTAH). The first batch of CISF contingent, Indian Formed Police Unit (IFPU-1), was deployed in three phases (wef 04.10.2008) in Haiti.

MINUSTAH was a stabilisation mission, the main objective being to assist Haitian National Police in protection duties during the electoral period and to assist in the restoration & maintenance of the rule of law, public safety & public order in Haiti. Besides

these, the major responsibility of IFPU-1 was to protect civilians under imminent threat of physical violence & to protect UN personnel, facilities, installations & equipment and to ensure the security & freedom of movement of its personnel.

The self sustained, highly trained, handpicked & suitably equipped CISF contingent assisted the Haitian National Police in weapon control & public security measures, to ensure restoration & maintenance of rule of law & public safety & order.

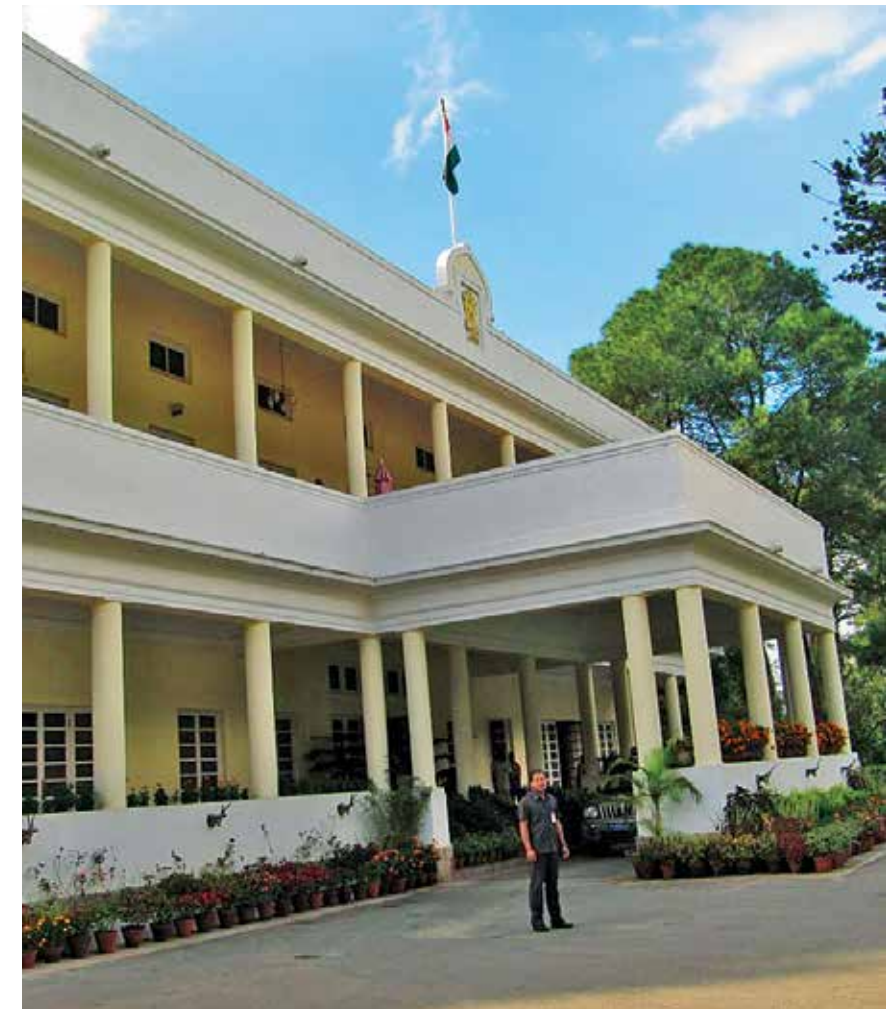

CISF CONTINGENT TO EMBASSY OF INDIA, KATHMANDU, NEPAL

It was an auspicious day for CISF when it was assigned the responsibility to provide security to Embassy of India Kathmandu, Nepal. Initially a troop of 35 CISF personnel, were deployed (in a phased manner) for 02 years on transfer & rotational basis. An additional strength of 10 personnel were deployed wef 13.11.2009. Thereafter, the strength was increased by 24 more personnel on 16.07.2010. Presently 65 Officers/personnel are deployed.

CISF CONTINGENT AT INDIAN CONSULATE GENERAL (NEPAL)

After the deployment of CISF contingent at Indian Embassy at Kathmandu (Nepal), Govt of India felt the necessity for securing Consulate General of India, Birgunj (Nepal). This responsibility was entrusted to CISF & initially 10 personnel were deployed wef 23.08.2005 for a period of two years on transfer & rotational basis. An additional 05 personnel were deployed wef 24.09.2007.

CISF Contingent at Indian Embassy, Nepal

INDIVIDUAL PEACE MAKERS IN UN

Besides CISF Contingent in UN, 213 officers and men have also rendered their services as IPOs (Individual Police Officers) to many UN Missions in different countries such as Kosovo, Mozambique (1994), Angola, Bosnia, Herzegovina, Sierra Leone, Sudan, Timor, Lebanon & Cyprus.

We thrive because the fire inside us burns stronger than around us !

Fire Service

CISF's Fire Service, an integral part of the force, is India's largest, professionally trained & well equipped fire fighting force. With a strength of more than 7,000 personnel, it provides fire protection & fire fighting cover to 101 Public Sector Undertakings. In the last 10 years, it has successfully attended to 37,215 fire calls across the country & has saved property worth thousands of crores.

Apart from fire fighting operations, fire wing plays a crucial role in rescue & special services. The skills & valour of the fire wing personnel have helped save precious human lives & assets worth crores of rupees.

Fire fighting being a specialised service, regular drills for the effective use of multiple equipments & gadgets are core of our SOP, besides live demos to handle industrial fires, oil & gas fires etc.

"Know thy self, know the enemy. A thousand battles, a thousand victories" - Sun Tzu
CISF's Special Security Group for VIP security

Special Security Group (SSG)

To provide security cover to VIPs & other protectees as per the scale & categorisation given by MHA, Special Security Group (SSG) was raised in Nov 2006. It provides all three components of VIP security i.e. proximate protection, escort & house protection.

As many of the protectees move across the length & breath of the country, CISF has established special hubs at different locations on a Pan India basis.

PERSONAL SECURITY

SSG headquartered in Greater Noida, provides proximate cover to 72 protectees in 42 cities spread over 14 States/UTs. Consistency in performance, team work of the highest order & optimum utilization of resources at hand, has enabled SSG to secure its protectees at all times.

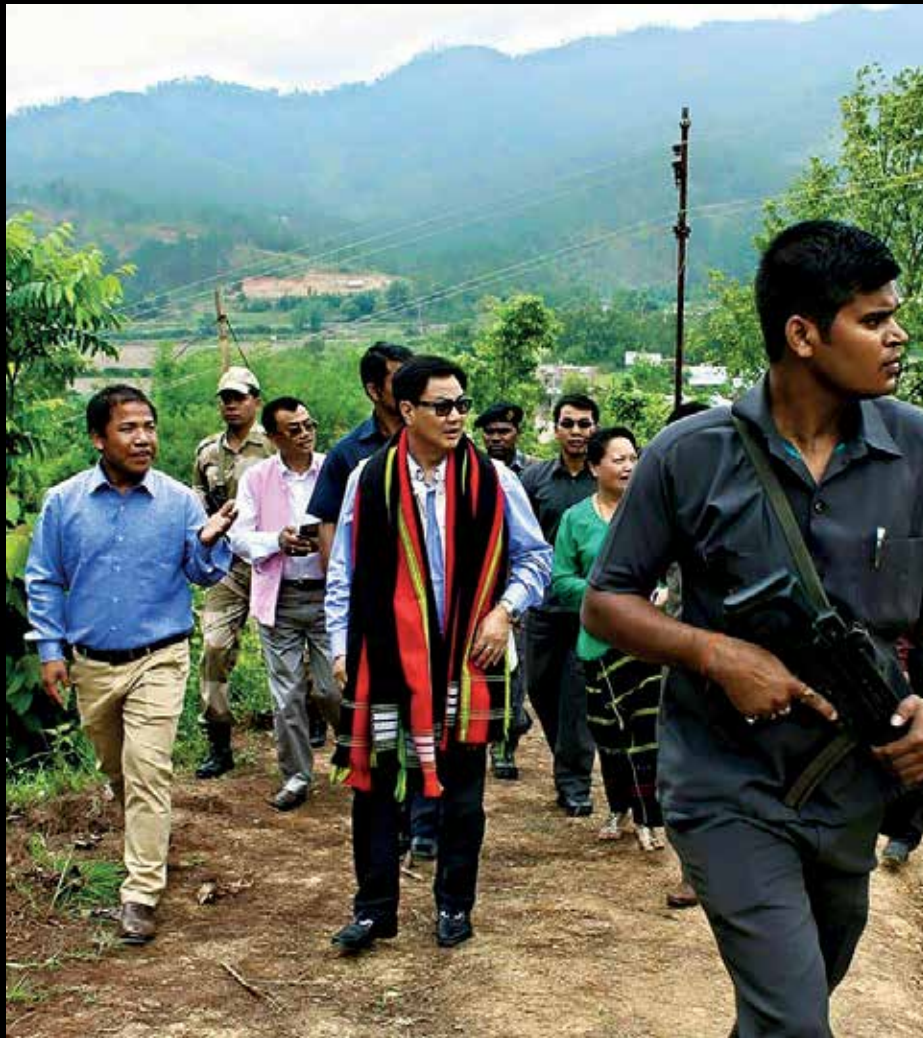

SSG:Key Focus Areas

- Structured Threat & Risk Assessment
- Customized Security Coverage
- Continuity in Pan India Security
- Liaison & Coordination with all security agencies & local administration across States/UTs
- In House 'Krav Mage' & 'Unit level Ramp Up' Training
- Systematic Rotation of Personnel
- Research & Upgradation in the fields of tactics, profiling, technology & fitness regimen

SECURITY CHALLENGES & AREAS OF GROWTH

In the past, this aspect of VIP security was under criticism due to its obtrusive nature & personal security getting prominence over law & order duties. Considering the demographics of the country, political dialectics, environment in the hinterland, development of technology & issues of access & privacy, there are major challenges.

- Integrating Security with Urban Planning
- Funding
- Greater Use of Technology
- Standardizations and Authorizations
- Use of Non Lethal Systems
- Research Based Upgradation

*The more difficult the terrain, the better
equipped we are to face daunting challenges*

CISF in Strife Torn Areas

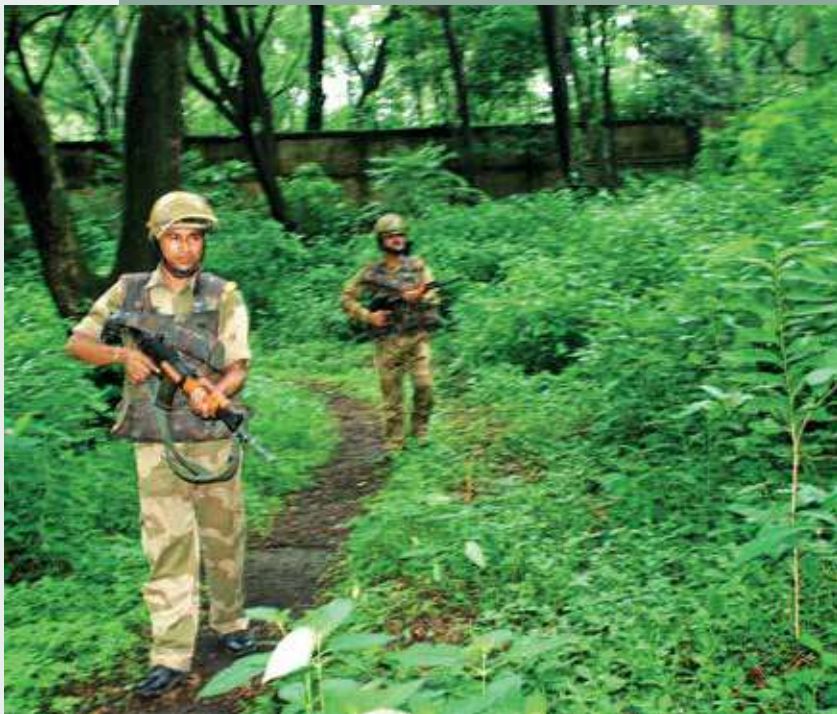

Naxal Affected Areas

Since its beginning, CISF is securing coal fields, mines & other undertakings across the country, located in LWE affected areas. Performing duties in such operationally challenging areas, day in and out, requires an exceptional degree of dedication and competence. There have been numerous instances where our personnel have exhibited exemplary bravery & courage in successfully fighting & repulsing Naxal attacks.

The gallant action of CISF Personnel posted at NALCO Damanjodi (Orissa), CCL Piparwar (Jharkhand) and BIOM Kirandul (Chhattisgarh) has been recognized by conferment of Kirti Chakra, Gallantry and other prestigious Medals.

Role of CISF

- To protect the Plant & property of the undertaking against, sabotage, pilferage, theft & damage etc.
- Protection of top executives & employees of the undertaking.
- Prevent abduction of employees.
- To stop extortion from executives & employees
- To safeguard the explosives of both Govt & contractor from falling into hands of naxals during transportation & while on use at work site.

CISF in Insurgency Affected Areas

Govt impetus to development also helped in controlling militancy in the remote regions. Towards this end, several PSUs took initiative to explore the natural resources towards a fruitful end. In the process, ONGC, OIL, GAIL, IOC & HPCL started their operations in the insurgency affected areas, thus giving a desired economic boost to local development. The responsibility of security of these PSUs & its Plant, machinery & employees were assigned to CISF.

The arduous nature of duty undertaken by CISF personnel in the North East Region demanded extreme vigilance, proper training & operational preparedness, to meet all eventualities. The commitment of CISF can be perceived from an incident of 01 March 1993, near Jorhat, Assam, when CISF personnel of ONGC, Jorhat were attacked

by Naga Militants, armed with sophisticated weapons. Though the sentry lost his life due to heavy firing, CISF personnel rushed to the spot & engaged in counter-fire. During the encounter, one Naga militant was killed.

In another instance, personnel of CISF Unit DHEP, Doyang, while escorting a huge cache of cash from SBI, Wokha to their Unit on 02 Feb 1995, were ambushed by Naga militants. They retaliated effectively. However, in the encounter, 09 CISF Officers & men laid down their lives, but not before they had thwarted the ambush & saved the cash being escorted. There have been other encounters since induction in North East, where our personnel have sacrificed their lives in the line of duty, which speaks volumes of their valour & dedication.

Human Resource and modern weapon technology - both go hand in hand, in securing a difficult terrain

CISF in J & K

The hilly terrain of Kashmir, clubbed with snow clad mountains & perennial rivers facilitates production of Hydel Power, which is essential for economic health of the nation. CISF provides security cover to hydel power undertakings and other units in J & K region.

Role of CISF

- Vital installations in India, specifically in J & K, continue to be on the radar of Pak-Islamic terrorist outfits. All Hydro Electric Projects in J & K are vulnerable to attack from such terror outfits.
- To protect from possible damage to Projects by terrorists, disgruntled elements or irate mobs etc., during civil commotion.
- To protect Projects from possible theft & pilferage.
- Extend security to foreigners, executives & employees of the Project/Plant against any armed attack/kidnapping, while at work place.
- To safeguard explosives from falling into hands of militants during transportation & while on use at work site.

The key to survival in strife torn areas is to be in regular touch with your weapon. Here, MMGs & 80 mm Mortars are our proven aids

PREPAREDNESS TO DEAL WITH LWE/ INSURGENCY/ TERRORISM

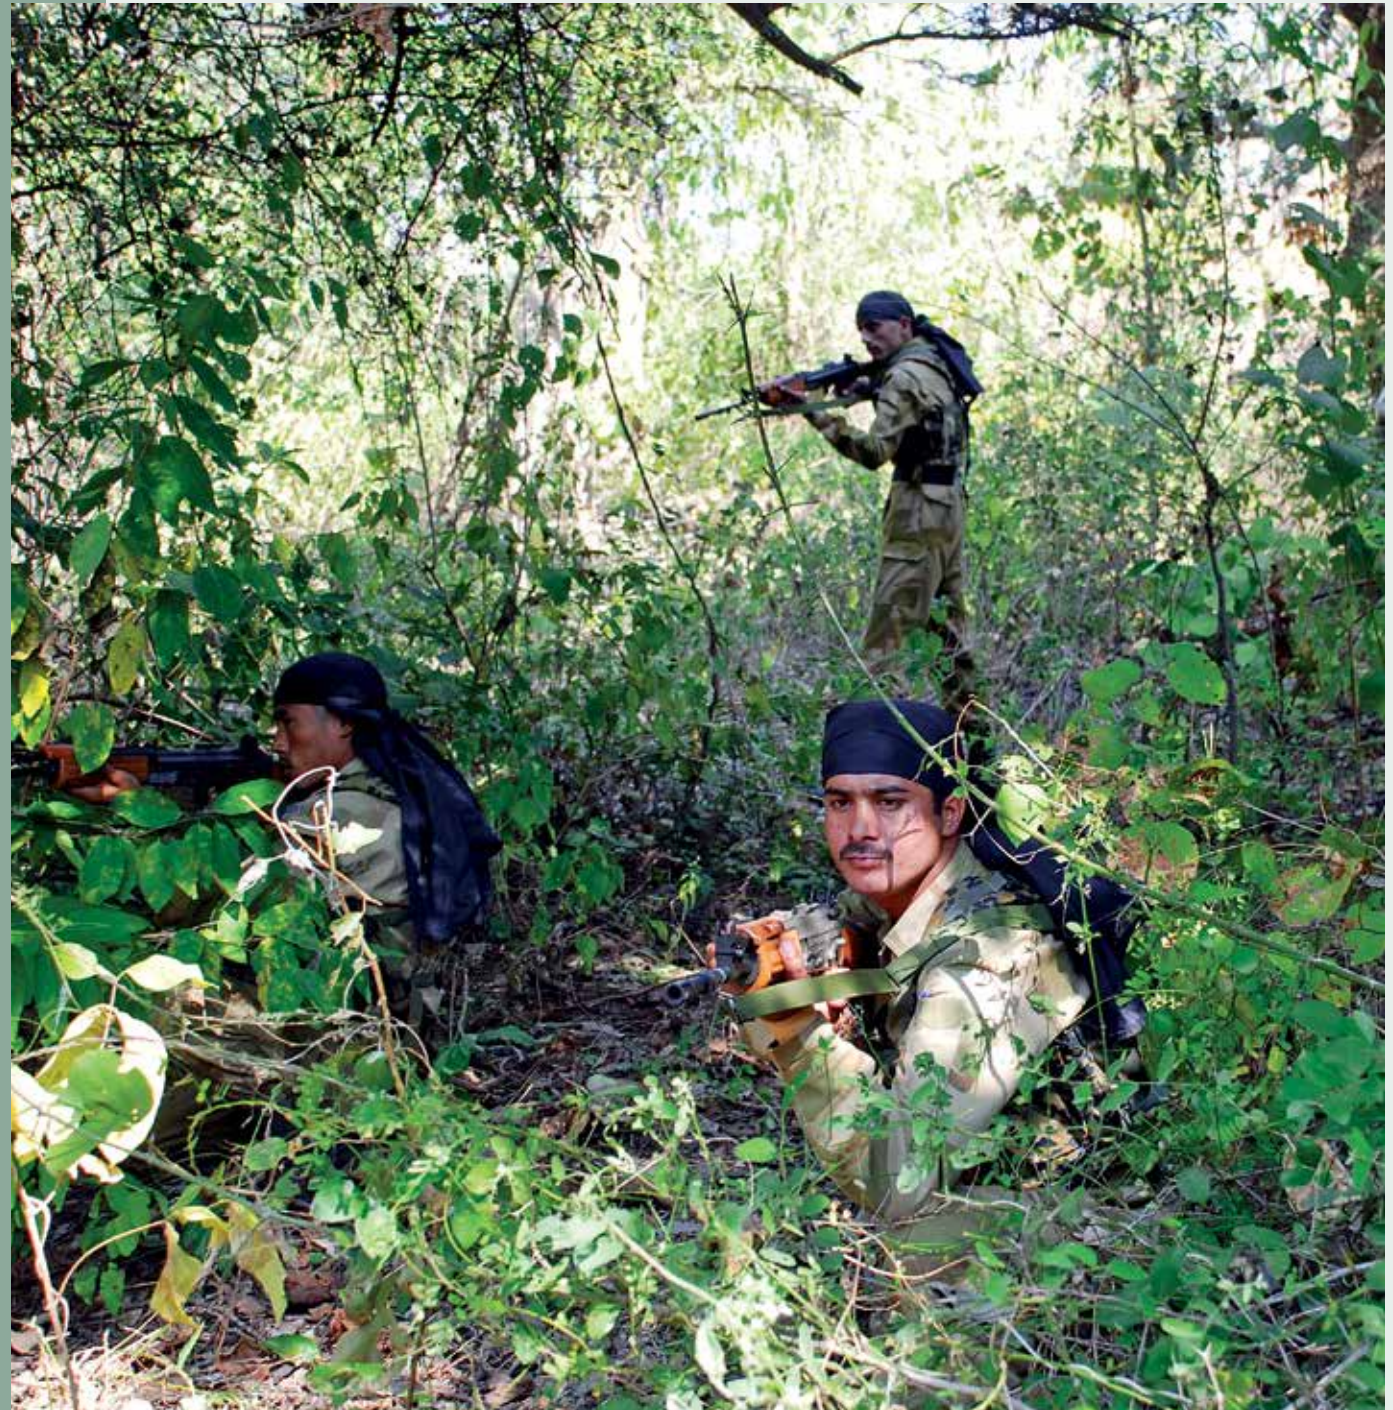

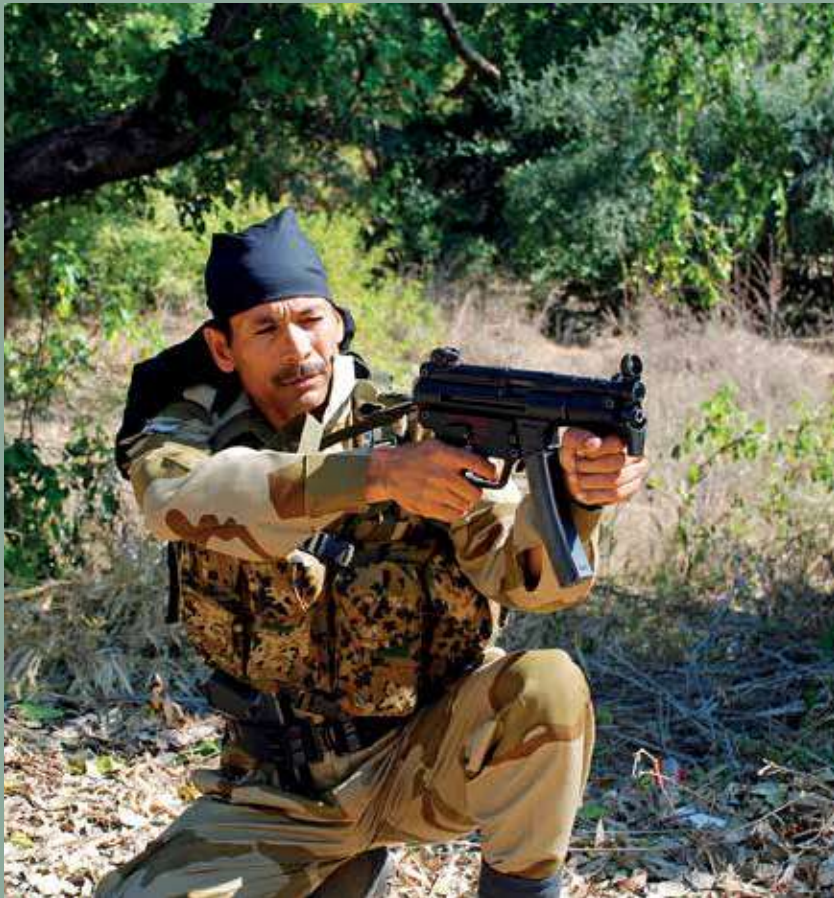

- Contingency plans for different units prepared & rehearsed regularly.
- SOPs prepared & continuously updated to meet new security challenges.
- Vehicles, weapons, security gadgets, communication equipment & personal protection items provided to deployed personnel.
- Periodical meetings with local police, intelligence agencies & local administration for better coordination & sharing of intelligence inputs.
- Technical surveys, to strengthen, review & upgrade security of critical infrastructure.
- Regular mock drills to counter any attack or eventuality & to overcome shortcomings.
- Provision of Bullet Proof Morchas at all strategic locations.
- Round the clock deployment of dedicated QRTs with sophisticated weapons, to counter any attack or contingency.
- Post-protection-plans for each post, prepared & rehearsed regularly.
- High level weapon usage skills imparted.
- Modern security gadgets provided as per requirement, which are constantly assessed & reviewed, as per prevailing security threats.

Manpower

Naxal Affected : Approximately 27000 personnel deployed in 49 hyper sensitive/sensitive & non classified units in Naxal affected areas

Insurgency : Approximately 8000 personnel deployed in 27 Units in North East .

J & K : Approximately 3000 personnel deployed in 08 Units in J & K.

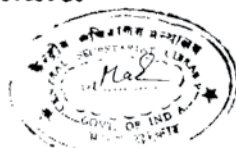

Eternal vigil is the hallmark of a secured nation and CISF is always upto the task

MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS

(Legislative Department)

New Delhi, the 29th December, 1999/Pausa 8, 1921 (Saka)

The following Act of Parliament received the assent of the President on the 29th December, 1999 and is hereby published for general information:—

**THE CENTRAL INDUSTRIAL SECURITY FORCE (AMENDMENT
AND VALIDATION) ACT, 1999**

No. 40 of 1999

[29th December, 1999.]

An Act further to amend the Central Industrial Security Force Act, 1968, and to validate certain revision petitions disposed of under the rules made under the said Act.

BE it enacted by Parliament in the Fiftieth Year of the Republic of India as follows:—

1. This Act may be called the Central Industrial Security Force (Amendment and Validation) Act, 1999. Short title.

50 of 1968.

2. In the Central Industrial Security Force Act, 1968 (hereinafter referred to as the principal Act), for the long title, the following long title shall be substituted, namely:— Amendment of long title.

"An Act to provide for the constitution and regulation of an armed force of the Union for the better protection and security of industrial undertakings owned by the Central Government, certain other industrial undertakings, employees of all such undertakings and to provide technical consultancy services to industrial establishments in the private sector and for matters connected therewith."

SECURITY & FIRE CONSULTANCY

Over the last five decades, CISF has developed expertise in the field of security & fire protection cover, by virtue of its presence in diverse sectors of the Indian Economy. By an amendment in CISF Act of 1999, Govt of India permitted CISF to offer consultancy services in security & fire protection to Public, Joint Venture & Private Sectors. Within this short span, CISF has provided its consultancy services to a large number of clients both in private & public sector. Prominent among them are - Allahabad High Court & its Bench at Lucknow; Cabinet Secretariat, New Delhi; DFID, India; British High Commission; New Delhi; Andhra Pradesh Assembly & Secretariat, Hyderabad.

Though Consultancy Wing was established in 1999, formal consultancy services began only in 2003. Consultancy wing has so far provided consultancy services to 173 Govt, Semi-Govt & private establishments.

*Consistently upgrading skills & core competencies
makes us a lethal, future ready Force*

Modernisation: Making CISF a Force of the Future

CISF strives to modernize continuously both in terms of equipment & training. Adaptability to change & use of cutting edge technologies have been the hallmark of the Force, which has always confronted new security challenges successfully. In view of the prevailing security environment in the country & threat from trans-national terrorism, the Force is continuously striving towards technological modernization & skills upgradation, to build security architecture of the critical infrastructure. Having set very high professional standards, coupled with an impressive track record, we now look forward to a brighter tomorrow with pride and confidence !

What makes CISF the Force of the Future

CISF is known as a tech-savvy Force. It has always been our endeavour to keep CISF a lean & efficient Force. Our emphasis on optimal use of gadgets & human resources makes CISF highly effective.

Renewed focus is now on modernising the training institutions, namely NISA Hyderabad, where CISF's R&D Cell has been established for updating technical knowledge/information about latest developments in the field of security. Besides, R&D Cell is also engaged in integrated security solutions/base models for functional sectors, formulation of best security practices & study of trends relating to factors affecting security.

FSTI, over a period of time has excelled as a premier institute for training in Disaster Management, apart from fire training, both for Domestic and International participants.

Training in Unarmed Combat: Krav Maga, 'Pekiti-Tirsia-Kali' & Parkour

Krav Maga : Derived from a Hebrew word meaning 'contact fight', this is an Israeli art of self-defence & retaliation with multiple attacks, causing serious injuries. It is known for its focus on real-world situations & extremely efficient & brutal counter attacks.

Pekiti-Tirsia-Kali : It is a Philippino Martial art form, usually meant for women. It is based on the principles of use of different objects usually worn on body- such as pen, hair pin, cap, belt, shoe lace, key & sandals-as deadly weapons, to take on rogue attackers.

Parkour : Parkour was developed in France, during late 1980s. It is a training discipline using movement that developed from military obstacle course training. Practitioners aim to get from one point to another in a complex environment, without assistive equipment & in the fastest & most efficient way possible.

Technological advancement is a tool towards tech savvy personnel ; with hands on training on modern gadgets/equipment/ simulators

Our endeavour is to find out simple, efficient, maintenance free & indigenised equipments & gadgetry, that would make our security system future ready, robust & cost-effective.

Our Operational Preparedness

To keep abreast with modern times, the nature, content & methodology of training has been advanced in CISF. Together with the emphasis on physical fitness stress on Weapon Training, Tactics & hands-on training on modern gadgets has increased.

Multi-skilling is the focus, alongwith adequate emphasis on specialization during training.

To ensure optimal performance, special training modules have been developed on mentoring & team building for Direct Officers & recruits,

Availability of Weapons & Explosives– A large no of modern sophisticated weapons & short range field explosives/equipment are available with CISF. The personnel are also trained in use & detection of explosives.

Preparing SOPs & Concept of Planning – CISF personnel are being trained on planning for contingencies, so that before taking any action, real time situation can be assessed & suitable action taken.

Profiling & Human Behavior –Experts & soft skills are being sought to master this intricate technique of forewarning of an impending threat & apprehending a potential terrorist/troublemaker, before actual attack/damage is done.

Stress on mental & physical fitness– Optimal operational preparedness also requires CISF personnel to be physically and mentally fit at all times. Initiatives like Yoga training, Stress management sessions by experts, Motivational talks by eminent personalities have been undertaken across CISF formations to achieve the desired levels of mental and physical fitness.

SWEAT, TOIL AND GLORY: SPORTS IN CISF

Mankind has constantly endeavored to explore & conquer new frontiers, scale new summits and write newer stories of ever greater glory. This has largely been possible due to the phenomenal capabilities of the human mind & will power. Through a combination of both, we have explored the depths of mighty oceans, the vast expanse of the limitless universe, landed on Moon and Mars, achieved astonishing levels of technological excellence & are planning to explore other planets for humanity to survive, grow & prosper.

Sports has developed & evolved along with development & growth of humanity. The relationship between sports & personality development is clearly delineated. To understand this paradigm better, we consider SPORTS as an acronym to be expanded as :

SOCIAL SKILLS **P**HYSICAL FITNESS **O**BEDIENCE **R**ESOURCEFULNESS **T**EAMWORK **S**TRESS TOLERANCE

CISF team captian taking oath during opening ceremony, AIPAC-2016

AC Samresh Jung carrying the torch at the opening ceremony of AIPAC-2016

Shri Kiren Rijiju, Hon'ble MoS (Home) kicked-off a Football & declared open Oorja-2017 CAPFs U-19 Football Talent Hunt Tournament

Shri ESL Narasimhan, Hon'ble Governor, Telangana was the Chief Guest during opening ceremony of AIPAC-2016

The acronym & its expansion clearly explains the set of skills individuals acquire when they practice sports -all of which together go a long way in shaping an individual personality. Heywood Brown once said- "Sports do not build character, they reveal it." Sports are also viewed as powerful tools in breaking down social, racial & other discriminatory barriers existing in society. This aspect of sports was brilliantly brought out by Nelson Mandela, who once famously said:- "Sports can create hope where once there was only despair. It is more powerful than Governments in breaking down racial barriers. It smiles in the face of all discrimination."

It is now an established fact worldwide that sports helps people improve their self esteem, increases motivation, makes a person more determined to achieve life goals & helps develop social & leadership skills, as well as time management & concentration skills. This profound influence which sports exercises on human personality is beautifully summed up by George A Sheeman who said,"Sport is where an entire life can be compressed into a few hours, where the emotions of a lifetime can be felt on an acre or two of ground, where a person can suffer and die and rise again on six miles of trails through a New York City park."

Children participated overwhelmingly in Promotion of Oorja-2017 CAPFs U-19 Football Championship at Mumbai

SPORTS

Despite its multi faceted responsibilities and important tasks, CISF has nurtured sporting talent and contributed many outstanding sportspersons of National and International repute, in various disciplines, who have brought glory not only to the Nation, but to the Force as well.

Our Heroes

On February 9, 2006 Sub-Inspector DNP Singh along with a contingent of CISF was deployed at Hiroli Explosive Magazine at Bailadila Iron Ore Project of National Mineral Development Corporation Ltd, Dantewada (Chhattisgarh). At about 1950 hrs, a group of Naxalites (500) armed with grenades, petrol-bombs, firearms, etc. launched a gruesome attack on the CISF post, asking CISF personnel to surrender their arms. SI DNP Singh, along with other CISF personnel displayed extraordinary courage and with utter disregard to their own personal safety, bravely retaliated the attack. Totally outnumbered & surrounded from all directions, the CISF personnel, under the leadership of SI DNP Singh, fought valiantly. SI DNP Singh & others were seriously injured but they did not lose courage & continued to return fire. SI DNP Singh continued to confront the Naxalites and resisted their advance to capture the explosive magazine but during this, he received multiple bullet injuries and laid down his life in discharge of duties.

In this incident, apart from SI DNP Singh, Constables Dinesh Singh, Mallikarjun, JN Mishra, RK Tiwari, Sure Nava Nath, UP Shukla & RK Yadav also sustained multiple injuries & gave up their lives fighting the Naxalites. So far CISF personnel have been awarded with Kirti Chakra (Posthumous) – (01), President Police Medal for Gallantry (Posthumous) – (13), President Police Medal for Gallantry – (02), Police Medal for Gallantry (Posthumous) – (15), Police Medal for Gallantry – (42), Fire Service Medal for Gallantry (Posthumous) – (11), Fire Service Medal for Gallantry – (05) and several other service Medals.

CISF WIVES WELFARE ASSOCIATION

Welfare & Sanrakshika

"A man travels the world over in search of what he needs and returns home to find it"

The story of women in CISF is not restricted to just its women personnel. Wives & daughters of staff are equally important stakeholders. Welfare activities in the force are focused on Force personnel's families & dependents since the very beginning.

Towards an effective & active role of the CISF Wives Welfare Association, a formal platform using the word '**Sanrakshan**' meaning protection followed by a feminine suffix '**ika**' was conceptualised. Under the aegis of '**Sanrakshika**', activities for wives & children are arranged on a regular basis in all Units.

BIRTH OF SANRAKSHIKA

It was formally registered as a Society on 26th Aug 2014. '**Sanrakshika**' besides publishing a magazine with creative pieces by women, also runs saloons, grocery counters, papad-pickle making units, tailoring & snack shops, with contributions from CISF wives & daughters. Every CISF Unit today boasts of a Sanrakshika shop, where items not available in the open market are sold, and are hence popular with all. This institutional support encourages entrepreneurship & helps in financial independence. It regularly organises programmes like Career Mela, DGs Scholarship scheme, Computer courses, Beauty & Wellness Courses, Hunar-se-Rozgar Scheme, Night Shelters, Old-age Care Homes, Winter clothes distribution, etc

The voices of families of CISF personnel, 'Sanrakshika' is today both a source of inspiration & facilitation, for empowerment of women. Set up with the objective of exploring & utilising the 'in-house' talent of the CISF fraternity, it also fulfills our Prime Minister's vision of women's empowerment.

Connections of the heart! Sanrakshika reaches out to all- the poor, the budding students, the under-privileged children or its own tiny tots

CISF's Face on Facebook

केन्द्रीय औद्योगिक सुरक्षा बल (सीआईएसएफ) एक अनोखा बल है, अद्वितीय है, अपने ढंग का एक ही है, क्योंकि इसका कार्य संरक्षण और सुरक्षा करना है। संरक्षण और सुरक्षा के लिए वीरता, कुशलता और दक्षता चाहिए, यह दक्षता सीआईएसएफ में एक विशेष क्षेत्र में प्राप्त की है और वह है औद्योगिक सुरक्षा....

मैं विश्वास प्रकट करता हूँ, उनका जो संकल्प वाक्य है, संरक्षण एवं सुरक्षा, उसके अनुरूप वे अपना कार्य और दायित्व निभाते रहेंगे और आंतरिक सुरक्षा की जो चुनौतियां उनके लिए हैं, उनका सामना करने में राष्ट्र को सफल बनाएंगे..

वन्देमातरम्
श्री एल के अडवाणी

APPROBATION FROM LUMINARIES

CISF has been playing a vital role in providing a safe and secure environment to the nation's critical infrastructure. I am sure, the Force will continue to strive towards excellence and professionalism in the discharges of its duties.

Shri Narendra Modi

CISF is indeed contributing to the Nation's strength. My greetings to the officers and staff.

Dr APJ Abdul Kalam

CISF has played a vital role in keeping our citizens & installations safe. I salute the sacrifices made by CISF while serving the country.

Shri Rajnath Singh

Security arrangements are very good. Keep it up.

Smt Sushma Swaraj

सीआईएसएफ महत्वपूर्ण प्रतिष्ठानों एवं अवसंरचनाओं को सुरक्षा प्रदान करने के साथ-साथ देश की आंतरिक सुरक्षा में भी एक महत्वपूर्ण भूमिका निभा रहा है। बल ने पेशेवर दक्षता एवं उच्च-स्तरीय मानकों के साथ सभी उत्तरदायित्वों को स्वीकारा है।

मुझे विश्वास है कि बल स्वयं को समयानुरूप बदलने की परंपरा का बनाये रखते हुए आने वाली नई चुनौतियों का सामना करने में सफल रहेगा।

Shri Hansraj Gangaram Ahir

CISF is rendering valuable services to the country by providing effective security and fire protection to the public sector undertakings and vital installations. The Force has been discharging its multifarious responsibilities with admirable degree of competence and compassion.

I am confident that the force personnel will continue to perform its duties with high degree of professionalism, discipline and dedication in the coming years too.

Shri Kiren Rijiju

I have found the security helpful, courteous and vigilant.

Shri Javed Akhtar

I must confess that the Central Industrial Security Force personnel at Indian airports now bowl you over when they frisk and let you go with "Have a nice day!" This shows that training and briefing can go a long way to present the better face of the police.

Shri R.K. Raghavan

The security arrangement at the airports is quite satisfactory and I am very happy, smart young boys are doing their duty very well. Good Wishes.

Shri P M Sayeed

Heartened to see a group of smart, dedicated young men doing such vigilant work at security. Their energy demonstrates their training and enthusiasm. I wish them all the best.

Shri Najeeb Jung

Maintenance of peaceful environment is a necessary precondition for achieving better industrial production. Scientific and technological developments have evolved various techniques as safeguards against sabotage and accidents in the system of industrial production. The significant role played by the Central Industrial Security Force in providing security to workers and managers is of great importance today.

Shri K. R. Narayanan

People in charge of the security of the Airport impress me with very conscientious and diligent professionalism.

Shri Hiroshi Hirobayashi

Very impressed with the professionalism coupled with courtesy. Please keep up the good work.

Shri Subir Raha

I am happy CISF has taken the responsibility of security of the airport. They were in charge of the security at my residence in Delhi and did this job well. I wish them all the best.

Dr. Najma Heptulla

"During the last 24 years the Force has been making all out efforts to introduce new technology and professionalism in safe-guarding the Public Sector Undertaking. In other spheres too, such as Internal Security duties, the CISF has rendered very useful service to the Nation."

Shri S.B. Chavan

I do not often travel to such a country as India... I decided to enter such a discovery when departing from Baroda Airport. I was stressed and shocked by your security. Such a great service and pleasure. After the Twin Towers dissolved in my country I wondered if the security would be of a high standard fulfilling my expectations.

Shri Bill Gates

The importance of industrial security has grown in our country with the increasing industrialization, making it necessary to introduce modern methods and equipment to curb such crimes.

Shri P. V. Narsimha Rao

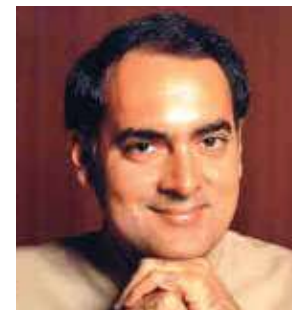

Thank you for the security. It feels safe when brave policemen protect us. Proud of you, keep up the good work.

Ms Raveena Tandon

Very efficient & good system. Keep it up.

Shri Amitabh Bachchan

"The record of the CISF is for all to see and we are proud of CISF."

"CISF is one of the most important factors in our industrial development system."

"Your role in India's development is second to none. It is a very key role."

Shri Rajiv Gandhi

"Let me take this opportunity to salute and congratulate the CISF, for the wonderful job that it has been performing for the last several years."

Shri P. Chidambaram

Very impressive effort. Passengers are bound to feel safer with such security measures in place.

Smt. Shobha De

The deployment of CISF contingent at Patna Airport has immensely improved the security scenario at Patna Airport.

Dr. C.P. Thakur

“आपके बल ने जो आज तक अपनी सेवा का परिचय दिया है उसकी प्रशंसा पुरे देश में हो रही है व जगह जगह से हमारे पास याचिकाएँ आ रही हैं कि ज्यादा से ज्यादा क्षेत्र को हम केन्द्रीय औद्योगिक सुरक्षा बल की देख रेख में सौंपे। इससे सिद्ध होता है कि आप की सेवा समूचे राष्ट्र के लिए बहुत ही महत्वपूर्ण कर्तव्य के रूप में है।”

श्री बूटा सिंह, गृह मंत्री

I visited RTC (A) for a period of 3 days. The Campus is beautifully maintained. DIG Khamo is an enterprising officer with lots of ideas. She is enthusiastic about her work and is genuinely interested in empowering the 1500 girls who are sent for training under her. She is a dynamic officer and interacting with her was a pleasant experience. I had a great comfortable time with her and her officers at the RTC.

Dr. Seema Rao,

Very strict and strong security and extremely well behaved too.

Shri Aamir Khan

"Your kind word of support backed by the Central Assistance.... through despatch of 40 specially trained CISF personnel and a team of specialist doctors, posting of a DIG level officer of CISF for day to day co-ordination and other support measures have really overwhelmed us. This kind of speedy relief assistance Assam had not received in the past."

Shri Tarun Gogoi

(Extract of the letter written to the Prime Minister by Shri Tarun Gogoi, Chief Minister, Assam about the relief work of CISF in July 2004- during flood)

Mr Mahendra Singh Dhoni, cricketer, at Ranchi Airport

Mr Abhijeet Bhattacharya, singer, at SSG, NOIDA
