The Central Industrial Security Force (CISF) gave a befitting farewell to three sniffer dogs that retired after more than eight years of service. The three dogs named Rocky, Romeo and Sony served in the Delhi Metro Rail Corporation (DMRC).

News agency ANI posted a video showing the felicitation ceremony of the dogs. The clip shows the dogs being accorded medals and then treated to a cake in the presence of the CISF personnel. They were even seen saluting. In the end, the dogs were taken away with much pomp in a car adorned with flowers.

While Rocky and Romeo took part in the proceedings, Sony, a German Shepherd, could not attend the ceremony because of ill health. The dogs will now be put up for adoption.

“CISF’s three sniffer dogs Rocky, Romeo and Sony of the DMRC unit retired today after completing more than eight years of service. The canines were felicitated for their selfless duty. Sony, the German Shepherd dog, could not take part in the ceremony due to ill health. These retired dogs will be handed over to Friendicoes-SECA, Delhi to be put up for adoption,” ANI informed in the tweet.

“Looks like Sony’s retirement plan is going to the dogs! Hopefully, he’ll be back on his paws soon,” commented a user. “You should have posted a pic of Sony at least,” said another. “How so wonderful to watch this. Wishing them a very happy and restful second innings,” another person wrote. “Thank you Rocky, Sony and Romeo for your service and duty. May you shall be blessed with immense love, healthy life and lord’s grace for lifetimes,” another netizen posted.
